The Balance Of Power In

Balance of power, in international relations, the posture and policy of a nation or group of nations protecting itself against another nation or group of nations by matching its power against the power of the other side. States can pursue a policy of balance of power in two ways: by increasing their own power, as when engaging in an armaments race or in the competitive acquisition of territory; or by adding to their own power that of other states, as when embarking upon a policy of alliances.

The term Balance of Power suggests ‘equilibrium which is subject to constant, ceaseless change. In short, though it stands for equilibrium, it also involves some disequilibrium. That is why scholars define it as a just equilibriums or some sort of equilibrium in power relations. 2.

Balance of Power: Meaning, Nature, Methods and Relevance

The balance of power theory in international relations suggests that states may secure their survival by preventing any one state from gaining enough military power to dominate all others. If one state becomes much stronger, the theory predicts it will take advantage of its weaker neighbors, thereby driving them to unite in a defensive coalition.

How the balance of political power has shifted in NC ...

A “balance of power” system is one in which the power held and exercised by states within the system is checked and balanced by the power of others. Thus, as a nation’s power grows to the point that it menaces other powerful states, a counter-balancing coalition emerges to restrain the rising power, such that any bid for world hegemony will be self-defeating.
