I recently read Debt:

the First 5000 Years by David Graeber, and it has stuck on my mind for a while. It's one of those "Everybody is wrong about X, here is what you've missed in plain sight" -type books; as Chamath would put it, "often wrong, but never in doubt." It's worth summarizing here, both because I think you'll find it interesting, and also because I'm enjoying the challenge of synthesizing all of these ideas together into a compact format.
