Death In Hamburg Society And

In 1892 Hamburg was the last major European city to have a significant epidemic of cholera. 10,000 people died in less than a month. Richard Evans examines this disaster in all its dimensions. It is an academic book - maps, tables and graphs accompany close argument and analysis. A familiarity with 19th century history is presupposed.

In his 1987 book, Death in Hamburg: Society and Politics in the Cholera Years (1830-1910), Sir Richard J. Evans examines the events surrounding the outbreak. Questions

that come to mind are: Are there any parallels to the COVID-19 crisis?
