The Girl on the Velvet Swing

Sex, Murder, and Madness at the Dawn of the Twentieth Century *Mulholland Books*

From New York Times bestselling author Simon Baatz, the first comprehensive account of the murder that shocked the world. In 1901 Evelyn Nesbit, a chorus girl in the musical Florodora, dined alone with the architect Stanford White in his townhouse on 24th Street in New York. Nesbit, just sixteen years old, had recently moved to the city. White was forty-seven and a principal in the prominent architectural firm McKim, Mead & White. As the foremost architect of his day, he was a celebrity, responsible for designing countless landmark buildings in Manhattan. That evening, after drinking champagne, Nesbit lost consciousness and awoke to find herself naked in bed with White. Telltale spots of blood on the bed sheets told her that White had raped her. She told no one about the rape until, several years later, she confided in Harry Thaw, the millionaire playboy who would later become her husband. Thaw, thirsting for revenge, shot and killed White in 1906 before hundreds of theatergoers during a performance in Madison Square Garden, a building that White had designed. The trial was a sensation that gripped the nation. Most Americans agreed with Thaw that he had been justified in killing White, but the district attorney expected to send him to the electric chair. Evelyn Nesbit's testimony was so explicit and shocking that Theodore Roosevelt himself called on the newspapers not to print it verbatim. The murder of White cast a long shadow: Harry Thaw later attempted suicide, and Evelyn Nesbit struggled for many years to escape an addiction to cocaine. The Girl on the Velvet Swing, a tale of glamour, excess, and danger, is an immersive, fascinating look at an America dominated by men of outsize fortunes and by the women who were their victims.

Drawing on rare and unpublished archive material, personal diaries, and new interviews from some of the survivors of that turbulent decade, The Velvia Mafia shows how—in the period leading up to the partial decriminalisation of homosexuality and the founding of the Gay Liberation movement--LGBT professionals in the music industry were working together, supporting each other, and changing history.

Say Nothing

A True Story of Murder and Memory in Northern Ireland *Anchor*

NEW YORK TIMES BESTSELLER * From the author of Empire of Pain--a stunning, intricate narrative about a notorious killing in Northern Ireland and its devastating repercussions "Masked intruders dragged Jean McConville, a 38-year-old widow and mother of 10, from her Belfast home in 1972. In this meticulously reported book--as finely paced as a novel--Keefe uses McConville's murder as a prism to tell the history of the Troubles in Northern Ireland. Interviewing people on both sides of the conflict, he transforms the tragic damage and waste of the era into a searing, utterly gripping saga." --New York Times Book Review Jean McConville's abduction was one of the most notorious episodes of the vicious conflict known as The Troubles. Everyone in the neighborhood knew the I.R.A. was responsible. But in a climate of fear and paranoia, no one would speak of it. In 2003, five years after an accord brought an uneasy peace to Northern Ireland, a set of human bones was discovered on a beach. McConville's children knew it was their mother when they were told a blue safety pin was attached to the dress--with so many kids, she had always kept it handy for diapers or ripped clothes. Patrick Radden Keefe's mesmerizing book on the bitter conflict in Northern Ireland and its aftermath uses the McConville case as a starting point for the tale of a society wracked by a violent guerrilla war, a war whose consequences have never been reckoned with. The brutal violence seared not only people like the McConville children, but also I.R.A. members embittered by a peace that fell far short of the goal of a united Ireland, and left them wondering whether the killings they committed were not justified acts of war, but simple murders. From radical and impetuous I.R.A. terrorists such as Dolours Price, who, when she was barely out of her teens, was already planting bombs in London and targeting informers for execution, to the ferocious I.R.A. mastermind known as The Dark, to the spy games and dirty schemes of the British Army, to Gerry Adams, who negotiated the peace but betrayed his hardcore comrades by denying his I.R.A. past--Say Nothing conjures a world of passion, betrayal, vengeance, and anguish. Look for Patrick Radden Keefe's latest bestseller, Empire of Pain

The Great Mistake

A novel *Knopf*

An exultant novel of New York City at the turn of the twentieth century, about one man's rise to fame and fortune, and his mysterious murder—“engrossing” (Wall Street Journal), “immersive” (The New Yorker), and “seriously entertaining” (The Sunday Times, London). Andrew Haswell Green is dead, shot at the venerable age of eighty-three, when he thought life could hold no more surprises. The killing—on Park Avenue in broad daylight, on Friday the thirteenth—shook the city. Born to a struggling farmer, Green was a self-made man without whom there would be no Central Park, no Metropolitan Museum of Art, no Museum of Natural History, no New York Public Library. But Green had a secret, a life locked within him that now, in the hour of his death, may finally break free. A work of tremendous depth and piercing emotion, The Great Mistake is the story of a city

transformed, a murder that made a private man infamous, and a portrait of a singular individual who found the world closed off to him—yet enlarged it.

Horseshoe Crabs and Velvet Worms

The Story of the Animals and Plants That Time Has Left Behind *Knopf*
From one of the world’s leading natural scientists and the acclaimed author of Trilobite!, Life: A Natural History of Four Billion Years of Life on Earth and Dry Storeroom No. 1 comes a fascinating chronicle of life’s history told not through the fossil record but through the stories of organisms that have survived, almost unchanged, throughout time. Evolution, it seems, has not completely obliterated its tracks as more advanced organisms have evolved; the history of life on earth is far older—and odder—than many of us realize. Scattered across the globe, these remarkable plants and animals continue to mark seminal events in geological time. From a moonlit beach in Delaware, where the hardy horseshoe crab shuffles its way to a frenzy of mass mating just as it did 450 million years ago, to the dense rainforests of New Zealand, where the elusive, unprepossessing velvet worm has burrowed deep into rotting timber since before the breakup of the ancient supercontinent, to a stretch of Australian coastline with stromatolite formations that bear witness to the Precambrian dawn, the existence of these survivors offers us a tantalizing glimpse of pivotal points in evolutionary history. These are not “living fossils” but rather a handful of tenacious creatures of days long gone. Written in buoyant, sparkling prose, Horseshoe Crabs and Velvet Worms is a marvelously captivating exploration of the world’s old-timers combining the very best of science writing with an explorer’s sense of adventure and wonder.

Highland Velvet *Simon and Schuster*
Jude Deveraux steps back to a time and place where revenge and rivalry rule men's hearts—and love conquers all—in this wonderful Montgomery novel. Bronwyn MacArran was a proud Scot. Stephen Montgomery was one of the hated English. He came to Scotland as a conqueror, saw her beauty and was vanquished. But still she would abhor him. She owned a temper hot enough to forge the armors of battle or inflame a valiant soldier's passion. Yet still she would resist him. She became his reason to live, his reason to love. And still she would deny him. But while clan fought clan, while brother took up sword against brother, and the highlands ran with blood—their destiny was made...and this mighty warrior pledged himself to his woman's pride, her honor and her name—and made of their love a torch to burn through the ages!

Caught up in this effort were scores of activists, lawyers, judges, and state and local officials. Working with a team of researchers and reporters, Bowden and Teague uncover never-before-told accounts from the election officials fighting to do their jobs amid outlandish claims and threats to themselves, their colleagues, and their families. Master storyteller Stephen King presents the classic “wondrously frightening” (Publishers Weekly) #1 New York Times bestseller about a writer’s horrific and haunting pseudonym. “I’m back...I’m back from the dead and you don’t seem glad to see me at all, you ungrateful son of a bitch.” After thirteen years of international bestseller stardom with his works of violent crime fiction, author George Stark is officially declared dead—revealed by a national magazine to have been killed at the hands of the man who created him: the once well-regarded but now obscure writer Thad Beaumont. Thad’s even gone so far as to stage a mock burial of his wildly successful pseudonym, complete with tombstone and the epitaph “Not a Very Nice Guy.” Although on the surface, it seems that Thad can finally concentrate on his own novels, there’s a certain unease at the prospect of leaving George Stark behind. But that’s nothing compared to the horror about to descend upon Thad’s new life. There are the vicious, out-of-control nightmares, for starters. And how is he able to explain the fact that everyone connected to George Stark’s untimely demise is now meeting a brutal end of their own in a pattern of homicidal savagery...and why each blood-soaked crime scene has Thad’s fingerprints all over it? Thad Beaumont may have once believed that George Stark was running out of things to say, but he’s going to find out just how wrong he is...
