Developmental Programming For Infants And Young Children ...

Developmental Screenings Screening young children is an effective ways to measure developmental progress and determine next steps—at a time when action can have its greatest impact: early in a child's life.

Program for Infants and Children

Different milestones characterize each stage of infant (0 to 12 months) and toddler (12 to 36 months) development. Although most healthy infants and toddlers reach each milestone within a specific window of time, there is much variation as to how wide that window may be. For example, culture, environment, socioeconomic status, and genetic factors can influence when an infant or toddler will begin to crawl, walk, or talk.

Infant and toddler development | Britannica

Developmental Programming for Infants and Young Children has proven to be an invaluable tool for teachers, therapists, and other professionals who assess and facilitate the development of children functioning primarily in the 0-to-60 month range.
