What is self-assessment? Self-assessment is a recognized best practice and has been applied to risks and controls for many years. Systematically applied across the organization at the entity and process levels, self-assessment is a pre-determined approach whereby individuals self-review or self-audit the controls for which they are responsible AND communicate the results to appropriate management.

Control self-
assessment is a
technique developed in
1987 that is used by a
range of organisations
including corporations,
charities and
government

departments, to assess
the effectiveness of
their risk management
and control processes.
A "control process" is a
check or process
performed to reduce or
eliminate the risk of
error. Since its
introduction the
technique has been
widely adopted in the
United States,
European Union and
other countries. There
