In simple words, a hierarchy is formed when extra visual weight is given to the most important element or message in your design. It can be achieved in various ways — using larger or bolder fonts to highlight the title; placing the key message higher than the other design elements; or adding focus to larger, more detailed and more colourful visuals than those less relevant or smaller images.

Books - The eLearning Coach

Gestalt, in visual design, helps users perceive the overall design as opposed to individual elements. If the design elements are arranged properly, the Gestalt of the overall design will be very clear. Space is “defined when something is placed in it”, according to Alex White in his book, The Elements of Graphic Design. Incorporating space into a design helps reduce noise, increase readability, and/or create illusion.
