Bargaining for Eden

Univ of California Press

"While open spaces in America are rapidly being destroyed as a result of greed, hubris, and neglect, Stephen Trimble's *Bargaining for Eden* is a powerful call for us to more

earnestly consider our solemn obligations as stewards of the Earth. Combining remarkable investigative research with his skills as a poignant essayist, Trimble has favored us with an extraordinary account that inspires as it challenges our values, our commitment to action, and our sense of connection with place, community, and the essence of who we are as inhabitants of this wondrous planet." —Rocky Anderson, Former Mayor of Salt Lake City "From Hetch Hetchy to Glen Canyon, we mourn the sacred places in the west that have been bargained away for the American dream. Stephen Trimble eloquently shows that these are not just conflicts over land, but choices over which American dream we pursue as a nation. What moves us to act? What do we really value? How shall we live together? In this mature and poignant book, Trimble urges passion and self-awareness and reminds us that no conflict arises totally outside of oneself; all of the things we fear in others may be possible in ourselves."—Peter Forbes, Director, Center for Whole Communities "With this masterwork, Stephen Trimble has given us the most reasoned and moving account of how and why the West becomes developed and its lands fragmented. Rather than merely pointing the finger at developers or passive staffers in federal

agencies, he places the development issue in a larger cultural context, asking us all to be full participants in the choices about how our lands and waters are ultimately managed. As wise as it is heartbreaking, Trimble's story challenges us to sign on to supporting a new ethics of land use in the West that will keep such tragedies from occurring so frequently in the future."—Gary Nabhan, author of *Renewing America's Food Traditions and Cultures of Habitat* "With *Bargaining for Eden*, Stephen Trimble has given us both a piece of dogged investigative journalism and a soul-searching confessional. The shocking, largely unreported story of Earl Holding and the

Snowbasin land swap becomes, in Trimble's heartfelt prose, a metaphor for the way land is used and abused in the West. But Stephen doesn't stop with the exposé. He weaves it into a thoughtful and thought-provoking reverie on man's place in an increasingly threatened landscape. We are all part of the problem. And, he writes hopefully, we can, with honest effort, become part of the solution."—Peter Shelton, author of *Climb to Conquer: The Untold Story of WWII's 10th Mountain Division Ski Troops* "Make no mistake: *Bargaining for Eden* is a brave and important book. It's a page-turner of a story about powerful men, unspeakable wealth, and Olympic gold-

medal mountains. But it's also a Jungle—in the tradition of Upton Sinclair, a disturbing story of how politics and capitalism worked hand-in-hand against the common good and our commonweal of wildlands. If we are ever to learn how to live on the land and at the same time protect its heart, maybe we can start here, in Trimble's beloved Utah mountains.”—Kathleen Dean Moore, author of *The Pine Island Paradox*

Tubob *Sheltergraphics*

Tubob: Two Years in West Africa with the Peace Corps is a memoir of a newly married couple who discover themselves in new light as they work and learn about the culture in a third-world country. They find

strength and frustration trying to make a difference. Caught up in a military coup, they seek refuge in a house with 116 other people and wonder if their lives will ever be the same.

Major General Isaac Ridgeway Trimble *McFarland*

Major General Isaac Ridgeway Trimble, one of the oldest and more eccentric officers involved in the Civil War, made himself a favorite of Stonewall Jackson through his courage and stubborn energy. Born to a Quaker family, Trimble spent his childhood on the American frontier. After graduating from West Point, he served in the Old Army and then involved himself with the growing railroad industry of the

1830s, living at the forefront of American modernization. As the war began, he sided with the South, burning railroad bridges north of Baltimore to deny Washington the support of Union troops, and then moving to Virginia. He enlisted in the Engineers and constructed battery emplacements. Commissioned brigadier general in late 1861, Trimble distinguished himself at Cross Keys, Gaines's Mill, Manassas, and Gettysburg; was involved in the Baltimore riots; and spent time as a prisoner on Johnson's Island. This biography covers Trimble's personal life and career with both the railroad and the military.

Simultaneously, it serves as a case study of an American who chose to side with the South. Before the war, Trimble traveled freely between states and showed no early indication of a regional attachment. The work uses Abraham Maslow's motivation model, the hierarchy of needs, to reconcile Trimble's self-interest with his need to belong to a community. It also raises various questions related to Southern history, including community identity, modernization, and the concept of the "New South."

How to Read Like a Writer *The Saylor Foundation*

When you Read Like a Writer (RLW) you work to identify some of the

choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think

about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

Beyond The Call
Penguin

This inspiring true story of veteran Air Force bomber pilot Robert Trimble, who laid his life on the line to rescue World War II POWs on the Eastern Front. Near the end of World War II, thousands of Allied ex-prisoners of war were abandoned to wander the war-torn Eastern Front. With no food, shelter, or supplies, the POWs were an army of dying men. As the Red Army advanced across Poland, the Nazi prison camps were liberated. In defiance of humanity, the freed

Allied prisoners were discarded without aid. The Soviets viewed POWs as cowards, and regarded all refugees as potential spies or partisans. The United States repeatedly offered to help, but were refused. With relations between the Allies strained, a plan was conceived for an undercover rescue mission. In total secrecy, the OSS chose an obscure American air force detachment stationed at a Ukrainian airfield. The man they picked to undertake it was veteran 8th Air Force bomber pilot Captain Robert Trimble. With little covert training, Trimble took the mission. He would survive by wit, courage, and determination. This is the compelling, true

story of an American hero who risked everything to bring his fellow soldiers home to safety and freedom. INCLUDES PHOTOS

Curiosity *Yale University Press*

An eclectic history of human curiosity, a great feast of ideas, and a memoir of a reading life from an internationally celebrated reader and thinker Curiosity has been seen through the ages as the impulse that drives our knowledge forward and the temptation that leads us toward dangerous and forbidden waters. The question "Why?" has appeared under a multiplicity of guises and in vastly different contexts throughout the chapters of human history. Why does evil

exist? What is beauty? How does language inform us? What defines our identity? What is our responsibility to the world? In Alberto Manguel's most personal book to date, the author tracks his own life of curiosity through the reading that has mapped his way. Manguel chooses as his guides a selection of writers who sparked his imagination. He dedicates each chapter to a single thinker, scientist, artist, or other figure who demonstrated in a fresh way how to ask "Why?" Leading us through a full gallery of inquisitives, among them Thomas Aquinas, David Hume, Lewis Carroll, Rachel Carson, Socrates, and, most importantly, Dante,

Manguel affirms how deeply connected our curiosity is to the readings that most astonish us, and how essential to the soaring of our own imaginations.

Admiral John S. McCain and the Triumph of Naval Air Power *Naval Institute Press*

"Admiral John S. McCain and the Triumph of Naval Air Power covers the life and professional career of Adm. John S. McCain Sr. (1884-1945). Spanning most of the first half of the twentieth century, McCain's life and career highlight the integration of aviation into the Navy, emphasizing the evolution of the aircraft carrier from a tactical element of the fleet

stressing sea control to a strategic force capable of long-range power projection. Although much of the book focuses on carrier aviation, McCain was instrumental in the emergence of flying boats, considered essential for long-range reconnaissance in the Pacific. One of the senior officers branded as "Johnny-Come-Latelys" by pioneer aviators, McCain nevertheless brought fresh approaches and innovation to naval aviation. His prewar and initial wartime commands encompassed tender-based and shore-based aviation, which were critical to early operations in the Pacific, yet McCain also understood the power and potential of

carrier-based aviation, initially as commanding officer of the USS Ranger before the war, then as a carrier task force commander under Adm. William F. Halsey in the Pacific in 1944 and 1945. Moreover, he served tours as Chief of the Bureau of Aeronautics and the first Deputy Chief of Naval Operations (Air) in 1942-1944. In these posts he witnessed and played a role in the culmination of naval air power as a means of delivering crippling blows to the enemy's homeland. McCain was among only a handful of officers who achieved prominence during the war and who had experience in all of these varied and challenging levels of command. "

The Mike File *Little Bound Books*

In *The Mike File*, Stephen Trimble grapples with his long-gone brother's life and death and looks behind doors he's barricaded in himself. His tender narrative grows from his quest to choose empathy and his refusal to let their mother's lifelong disinclination to talk about her grief and guilt render Mike's life invisible. Mike was a sweet kid but challenged in school. And then, in 1957, when "Stevie" was six and Mike 14, rage and

psychosis overwhelmed Mike. His new diagnosis: paranoid schizophrenia, capable of violence. Their parents had no choice but to commit Mike to the Colorado State Hospital. He never lived at home again. Mike's heartrending life mirrored the history of our treatment of mental illness in America. He spent nine years in overcrowded Colorado mental institutions. When mainstreamed back to Denver, he rejected his family. Ten years later, he died alone in a boarding home, undiscovered for three days. The Denver media used his lonely death to expose these "ratholes" warehousing people with mental illness. Trimble closes by imagining a more

hopeful vision of community care that could have eased Mike's life and granted the author a lifelong relationship with his big brother. Equal parts detective story, social history, journey of self-discovery, and compassionate and unsparing memorial to a family and a forgotten life, *The Mike File* will move every reader with a relative or friend touched by psychiatric illness or disability—a bond that embraces nearly everyone.

Diversity and Leadership *SAGE Publications*

Although leadership theories have evolved to reflect changing social contexts, many remain silent on issues of equity, diversity, and social justice. *Diversity and Leadership*, by Jean Lau Chin and Joseph E. Trimble, offers a new paradigm for examining leadership by bringing together two domains—research on leadership and research on diversity—to challenge existing notions of leadership and move toward a diverse and global view of society and its institutions. This compelling book

delivers an approach to leadership that is inclusive, promotes access for diverse leaders, and addresses barriers that narrowly confine our perceptions and expectations of leaders. Redefining leadership as global and diverse, the authors impart new understanding of who our leaders are, the process of communication, exchange between leaders and their members, criteria for selecting, training, and evaluating leaders in the 21st century, and the organizational and societal contexts in which leadership is exercised.

The Natural *Farrar, Straus and Giroux*
Introduction by Kevin Baker
The Natural, Bernard Malamud's

first novel, published in 1952, is also the first—and some would say still the best—novel ever written about baseball. In it Malamud, usually appreciated for his unerring portrayals of postwar Jewish life, took on very different material—the story of a superbly gifted "natural" at play in the fields of the old daylight baseball era—and invested it with the hardscrabble poetry, at once grand and altogether believable, that runs through all his best work. Four decades later, Alfred Kazin's comment still holds true: "Malamud has done something which—now that he has done it!—looks as if we have been waiting for it all our lives. He has really

raised the whole passion and craziness and fanaticism of baseball as a popular spectacle to its ordained place in mythology."

Flower Moon *Simon and Schuster*

Tally Jo and Tempest Trimble are mirror twins, so alike they were almost born the same person. Inseparable, but more than that. Connected. That is, until this summer. The twins are traveling with Pa Charlie's carnival just like always, but there's a new distance between them. Tempest is so caught up in her own ideas, she doesn't seem to have space left in her life for Tally. And, more than that, Tally's started to notice there's something

between them. Something real, growing with the phases of the moon, pushing them apart. Sparking, sputtering, wild. Dangerous. With the full moon approaching, Tally knows it's up to her to find out what's going on—and to beat it. If she can't, she might just lose her sister. Forever. For fans of *Savvy* and *A Snicker of Magic*, this is a spellbinding story of friendship and family—a poignant ode to both what's worth holding on to and what we have to let go.

But: This house, which Jack built, is now falling down. Discreet means circumspect or prudent; discrete means separate or distinct. Remember

that "Questions are never indiscreet. Answers sometimes are" (Oscar Wilde). Flaunt means display, flout means disdain. If you flout this distinction you will flaunt your ignorance. Forgo means do without; forego means go before. Fortuitous means accidental, not fortunate or well-timed. Times: Take care. Three times more than X is four times as much as X. Full stops: Use plenty. They keep sentences short. This helps the reader.

American Happiness

NewSouth Books

American Happiness is

an eclectic collection of verse from a bold poet of everyday life, Jacqueline Allen Trimble. Ironically titled, the work addresses everything from the death of parents to racial tension to the encroachment of coyotes into urban spaces. The title is taken from a poem in the book which considers the kinder, gentler exploits of Sheriff Andy and Deputy Barney during a time when Southern law enforcement was neither universally kind or gentle. Says Trimble, "Barney had one bullet/and no need for a rope./The only burning he did was for his Thelma Lou." On her poetic journey, which takes us from the personal to the political, Trimble

probes our racial divide. She is by turns compassionate and fierce, cutting at our hypocrisy with the knife of her words and willing us toward our better common humanity.

A Window on Eternity *Simon and Schuster*

The remarkable story of how one of the most biologically diverse habitats in the world was destroyed, restored, and continues to evolve—with stunning, full-color photographs by two of the world's best wildlife photographers. A Window on Eternity is a stunning book of splendid prose and gorgeous photography about one of the biologically richest places in Africa and perhaps in the world. Gorongosa National Park in Mozambique was nearly destroyed in a brutal civil war, then was reborn and is now evolving back to its original state. Edward O. Wilson's personal, luminous

description of the wonders of Gorongosa is beautifully complemented by Piotr Naskrecki's extraordinary photographs of the park's exquisite natural beauty. A bonus DVD of Academy Award-winning director Jessica Yu's documentary, *The Guide*, is also included with the book. Wilson takes readers to the summit of Mount Gorongosa, sacred to the local people and the park's vital watershed. From the forests of the mountain he brings us to the deep gorges on the edge of the Rift Valley, previously unexplored by biologists, to search for new species and assess their ancient origins. He describes amazing animal encounters from huge

colonies of agricultural termites to specialized raider ants that feed on them to giant spiders, a battle between an eagle and a black mamba, “conversations” with traumatized elephants that survived the slaughter of the park’s large animals, and more. He pleads for Gorongosa—and other wild places—to be allowed to exist and evolve in its timeless way uninterrupted into the future. As he examines the near destruction and rebirth of Gorongosa, Wilson analyzes the balance of nature, which, he observes, teeters on a razor’s edge. Loss of even a single species can have serious ramifications throughout an ecosystem, and yet we are carelessly

destroying complex biodiverse ecosystems with unknown consequences. The wildlands in which these ecosystems flourish gave birth to humanity, and it is this natural world, still evolving, that may outlast us and become our legacy, our window on eternity.

Bitter River *Minotaur Books*

In the next stunning novel from Pulitzer Prize-winning Julia

Keller, following the popular *A Killing in the Hills*, a pregnant teenager is found murdered at the bottom of a river. Phone calls before dawn are never good news. And when you're the county's prosecuting attorney, calls from the sheriff are rarely good news, either. So when Bell Elkins picks up the phone she already knows she won't like what she's about to hear, but she's still not prepared for this: 16-year-old Lucinda Trimble's body has been found at the bottom of Bitter River. And Lucinda didn't drown—she was dead before her body ever hit the water. With a case like that, Bell knows the coming weeks are going to be tough. But that's not all

Bell is coping with these days. Her daughter is now living with Bell's ex-husband, hours away. Sheriff Nick Fogelsong, one of Bell's closest friends, is behaving oddly. Furthermore, a face from her past has resurfaced for reasons Bell can't quite figure. Searching for the truth, both behind Lucinda's murder and behind her own complicated relationships, will lead Bell down a path that might put her very life at risk. In *Bitter River*, Pulitzer Prize-winner Julia Keller once again weaves a compelling, haunting mystery against the stark beauty and extreme poverty of a small West Virginia mountain town.

A Death in the Rainforest *Algonquin*

Books

"Perhaps the finest and most profound account of ethnographic fieldwork and discovery that has ever entered the anthropological literature." —The Wall Street Journal "If you want to experience a profoundly different culture without the exhausting travel (to say nothing of the cost), this is an excellent choice." —The Washington Post As a young anthropologist, Don Kulick went to the tiny village of Gapun in New Guinea to document the death of the native language, Tayap. He arrived knowing that you can't study a language without understanding the daily lives of the people who speak it: how they talk to their

children, how they argue, how they gossip, how they joke. Over the course of thirty years, he returned again and again to document Tayap before it disappeared entirely, and he found himself inexorably drawn into their world, and implicated in their destiny. Kulick wanted to tell the story of Gapuners—one that went beyond the particulars and uses of their language—that took full stock of their vanishing culture. This book takes us inside the village as he came to know it, revealing what it is like to live in a difficult-to-get-to village of two hundred

people, carved out like a cleft in the middle of a tropical rainforest. But *A Death in the Rainforest* is also an illuminating look at the impact of Western culture on the farthest reaches of the globe and the story of why this anthropologist realized finally that he had to give up his study of this language and this village. An engaging, deeply perceptive, and brilliant interrogation of what it means to study a culture, *A Death in the Rainforest* takes readers into a world that endures in the face of massive changes, one that is on the verge of disappearing forever.
