Yes your engine is a BF-MS which was followed with the B43M, basically the same engine with a 3 1/4" bore instead of the 3 1/8". Their called a BF for short the only thing to consider would

be if replacing a piston or rings, I don't know if new BF pistons and rings are still available most guys bore them out to 3 1/4 and use the B43M piston and rings.
