Openstack Api Documentation

OpenStack API Documentation Use the OpenStack APIs to launch server instances, create images, assign metadata to instances and images, create storage containers and objects, and complete other actions in your OpenStack cloud.

OpenStack Docs: OpenStack API

Documentation

The API working group has API documentation guidelines that all teams providing a REST API service in OpenStack strive to follow. This document tells you what and how much to write. If you follow the suggested outline, your API guide will be accurate and complete.

OpenStack Docs: OpenStack API documentation

OpenStack APIs¶ To authenticate access to OpenStack services, you must first issue an authentication request with a payload of credentials to OpenStack Identity to get an authentication token. Credentials are usually a combination of your user name and password, and optionally, the name or ID of the project

of your cloud.
