A Timber Framers Workshop: Joinery & Design Essentials ...

The major portion of A Timber Framers Workshop was first written back in 1983. Over a period of a number of years several revisions and additions took place, as it was used as the handout workshop manual for Fox Maple Timber Framing Workshops. At last, it was published for general distribution in 1998. When this book was first published in 1998, scientific testing results for pegged mortise and tenon joinery simply did not exist. The corollaries that could be made at that time were drawn ...

At Vermont Timber Works we still handcraft all of our frames using classic timber framing tools like framing chisels, mortising machines, beam saws, peg drills, slicks and more. While many other timber framers have started using automated equipment for fabrication, we have found that it is still better, and more accurate, to use hand tools.

Fox Maple Timber Framing Workshops

The joinery work was very good on this frame. We were short one participant, but we still were able to handcraft a lot of joints and raise the frame by hand on Saturday. As the instructor, I learn something new on every frame that is cut and I enjoy building new friendships as much as building the timber frame.

Timber Frame Workshop - Grand Oaks Timber Framing

Timber framing is an ancient building style that utilizes large timbers and handcrafted joinery to create beautiful and inviting homes. The main goal of Grand Oaks Academy of Timber Framing is to be an educational program which will introduce and cultivate an appreciation for the craft of timber framing.

workshops - Grand Oaks Timber Framing

traditional timber framing it is often simpler and stronger to stagger joints. When a joint is cut in a timber, wood is removed and the timber's strength is diminished. Joining multiple members at the same location often creates complex joinery and can weaken members ex-cessively. Raising the plate a foot or two above the tie avoids this
