Solution-Focused Brief therapy (SFBT) is a future-oriented, goal-directed approach to solving human problems of living. Initially developed as a rebellion against the traditional psychotherapy approach which is driven by the therapist/expert deciding what might be the best possible solution for those who seek help, SFBT aims to work collaboratively with the client who understands his own circumstances the best in order to arrive at a solution that is pragmatic and realistic to fit his needs.

What is the Solution Focused Approach? - Solutions Centre

Updated May 21, 2020. Solution-based therapy, also known as solution-focused therapy or brief therapy, entered mainstream psychotherapy practices in the 1970s and 1980s. What began as an aspect of systems therapies has morphed into its own practice, which has grown increasingly in popularity. Created by married therapists Steve de Shazer and Insoo Kim Berg, solutions-based therapy focuses on the now - today - in the moment.
