With astonishing honesty, this memoir, *Get Me Out of Here*, reveals what mental illness looks and feels like from the inside, and how healing from borderline personality disorder is possible through intensive therapy and the support of loved ones. A mother, wife, and working professional, Reiland was diagnosed with borderline personality disorder at the age of 29—a diagnosis that finally explained her explosive anger, manipulative behaviors, and self-destructive episodes including bouts of anorexia, substance abuse, and promiscuity. A truly riveting read with a hopeful message. Excerpt: "My hidden secrets were not well-concealed. The psychological profile had been right as had the books on BPD. I was manipulative, desperately clinging and prone to tantrums, explosiveness, and frantic acts of desperation when I did not feel the intimacy connection was strong enough. The tough chick loner act of self-reliance was a complete facade."

The Way She Feels: My Life on the Borderline in Pictures and Pieces *Tin House Books*

Named a Debut Book to Look Forward to This Summer by Bustle “Audaciously human and raw. The Way She Feels is a rainbow during the rain.” —Mara Altman A witty and one-of-a-kind debut graphic memoir detailing and drawing the life of a girl with borderline personality disorder finding her way—and herself—one day at a time. What does it feel like to fall in love too hard and too fast, to hate yourself in equal and opposite measure? To live in such fear of rejection that you drive friends and lovers away? Welcome to my world. I’m Courtney, and I have borderline personality disorder (BPD), along with over four million other people in the United States. Though I’ve shown every classic symptom of the disorder since childhood, I wasn’t properly diagnosed until nearly a decade later, because the prevailing theory is that most people simply “grow out of it.” Not me. In my illustrated memoir, *The Way She Feels: My Life on the Borderline in Pictures and Pieces*, I share what it’s been like to live and love with this disorder. Not just the hospitalizations, treatments, and residential therapy, but the moments I found comfort in cereal, the color pink, or mini corndogs; the days I couldn’t style my hair because I thought the blow-dryer was going to hurt me; the peace I found when someone I love held me. This is a book about vulnerability, honesty, acceptance, and how to speak openly—not only with doctors, co-patients, friends, family, or partners, but also with ourselves.

I Hate You, I Love You *Loveswept*

There’s a fine line between love and hate. And these two can’t decide which side they’re really on. . . . Poetry professor Naomi Price is loved by her students, happily works around the clock, and has credentials no one could deny. Except, it seems, for her arch-nemesis at Hainamor University. The man never has anything polite to say, and now the two of them are competing for a prestigious honor that just so happens to come with a cash award. With every move Naomi makes to impress her colleagues, her rival is right there beside her, elbow to elbow, making it impossible to ignore how devastatingly hot he is—even if he is a total bastard. Sebastian Blake knows what Naomi thinks of him, and he’s trying hard not to care. Maybe he’s been grouchy with her in the past, but she isn’t making his life any easier with her crusade to win over the Personnel Committee and earn an honor that is rightfully his. Naomi just doesn’t quit, and though he’d never admit it, there’s something sexy about her. Something that has him tied up in knots. Something that makes him want to move beyond his painful past and take a chance—at least for as long as it takes to kiss her silly and see what happens next. Warning: Intense bickering leads to intense sexual chemistry! This ebook includes an excerpt from another Loveswept title. Understanding the Borderline Mother

Helping Her Children Transcend the Intense, Unpredictable, and Volatile Relationship *Rowman & Littlefield*

The first love in our lives is our mother. Recognizing her face, her voice, the meaning of her moods, and her facial expressions is crucial to survival. Dr. Christine Ann Lawson vividly describes how mothers who suffer from borderline personality disorder produce children who may flounder in life even as adults, futilely struggling to reach the safety of a parental harbor, unable to recognize that their borderline parent lacks a pier, or even a discernible shore. Four character profiles describe different symptom clusters that include the waif mother, the hermit mother, the queen mother, and the witch. Children of borderlines are at risk for developing this complex and devastating personality disorder themselves. Dr. Lawson's recommendations for prevention include empathic understanding

of the borderline mother and early intervention with her children to ground them in reality and counteract the often dangerous effects of living with a "make-believe" mother. Some readers may recognize their mothers as well as themselves in this book. They will also find specific suggestions for creating healthier relationships. Addressing the adult children of borderlines and the therapists who work with them, Dr. Lawson shows how to care for the waif without rescuing her, to attend to the hermit without feeding her fear, to love the queen without becoming her subject, and to live with the witch without becoming her victim. It's Hard Not to Hate You

A Memoir *St. Martin's Press*

From the author of *THIN IS THE NEW HAPPY* comes a hilarious new memoir about embracing your Inner Hater. In the midst of a health and career crisis, Valerie uncorks years of pent up rage, and discovers you don't have to be happy to be happy. You don't have to love everyone else to like yourself. And that your Bitchy Twin might just be your funniest, most valuable and honest ally. "The

hate in you has got to come out." After being advised to reduce stress by her doctor, humorist Valerie Frankel realized the biggest source of pressure in her life was maintaining an unflappable easing-going persona. After years of glossing over the negative, Frankel goes on a mission of emotional honesty, vowing to let herself feel and express all the toxic emotions she'd long suppressed or denied: jealousy, rage, greed, envy, impatience, regret. Frankel reveals her personal History of Hate, from mean girls in junior high, selfish boyfriends in her twenties and old professional rivals. Hate stomps through her current life, too, with snobby neighbors, rude cell phone talkers, scary doctors and helicopter moms. Regarding her husband, she asks, "How Do I Hate You? Let Me Count the Ways." (FYI: There are three.) By the end of her authentic emotional experience, Frankel concludes that toxic emotions are actually good for you. The positive thinkers, aka, The Secret crowd, have it backwards. Trying to ward off negativity was what'd been causing Frankel's career stagnation, as well as her health and personal problems. With the guidance of celebrity friends like Joan Rivers and psychic Mary T. Browne, Frankel now uses anger, jealousy and impatience as tools to be a better, balanced and deeper person. IT'S HARD NOT TO HATE YOU sends the message that there are no wrong emotions, only wrong ways of dealing with them.

Love Me, Don't Leave Me

Overcoming Fear of Abandonment and Building Lasting, Loving Relationships *New Harbinger Publications*

Everyone thrives on love, comfort, and the safety of family, friends, and community. But if you are denied these basic comforts early in life, whether through a lack of physical affection or emotional bonding, you may develop intense fears of abandonment that can last well into adulthood—fears so powerful that they can actually cause you to push people away. If you suffer from fears of abandonment, you may have underlying feelings of anger, shame, fear, anxiety, depression, and grief. These emotions are intense and painful, and when they surface they can lead to a number of negative behaviors, such as jealousy, clinging, and emotional blackmail. In *Love Me, Don't Leave Me*, therapist Michelle Skeen combines acceptance and commitment therapy (ACT), schema therapy, and dialectical behavioral therapy (DBT) to help you identify the root of your fears. In this book you'll learn how schema coping behaviors—deeply entrenched and automatic behaviors rooted in

childhood experiences and fears—can take over and cause you to inadvertently sabotage your relationships. By recognizing these coping behaviors and understanding their cause, you will not only gain powerful insights into your own mind, but also into the minds of those around you. If you are ready to break the self-fulfilling cycle of mistrust, clinginess, and heartbreak and start building lasting, trusting relationships, this book will be your guide.

Girl, Interrupted *Vintage*

In 1967, after a session with a psychiatrist she'd never seen before, eighteen-year-old Susanna Kaysen was put in a taxi and sent to McLean Hospital. She spent most of the next two years in the ward for teenage girls in a psychiatric hospital as renowned for its famous clientele—Sylvia Plath, Robert Lowell, James Taylor, and Ray Charles—as for its progressive methods of treating those who could afford its sanctuary. Kaysen's memoir encompasses horror and razor-edged perception while

providing vivid portraits of her fellow patients and their keepers. It is a brilliant evocation of a "parallel universe" set within the kaleidoscopically shifting landscape of the late sixties. *Girl, Interrupted* is a clear-sighted, unflinching document that gives lasting and specific dimension to our definitions of sane and insane, mental illness and recovery.
