The Routledge Companion to International Hospitality Management *Routledge*

The hospitality sector is facing increasing competition and complexity over recent decades in its development towards a global industry. The strategic response to this is still that hospitality companies try to grow outside their traditional territories and domestic markets, while the expansion patterns and M&A activities of international hotel and restaurant chains reflect this phenomenon. Yet, interestingly, the strategies, concepts, and methods of internationalization as well as the managerial and organizational challenges and impacts of globalizing the hospitality business are under-researched in this industry. While the mainstream research on international management offers an abundance of information and knowledge on topics, players, trends, concepts, frameworks, or methodologies, its ability to produce viable insights for the hospitality industry is limited, as the mainstream research is taking place outside of the service sector. Specific research directions and related cases like the international dimensions of strategy, organization, marketing, sales, staffing, control, culture, and others to the hospitality industry are rarely identifiable so far. The core rationale of this book is therefore to present newest insights from research and industry in the field of international hospitality, drawing together recent scientific knowledge and state-of-the-art expertise to suggest directions for future work. It is designed to raise awareness on the international factors influencing the strategy and performance of hospitality organizations, while analyzing and discussing the present and future challenges for hospitality firms going or being international. This book will provide a comprehensive overview and deeper understanding of trends and issues to researchers, practitioners, and students by showing how to master current and future challenges when entering and competing in the global hospitality industry.

Planning Research in Hospitality and Tourism *Routledge*

Planning Research in Hospitality and Tourism provides an accessible, concise and practical guide to planning, conducting and analysing research in tourism and hospitality. The authors skilfully introduce the basic principles and techniques of research in the international hospitality and tourism sectors, and provide detailed guidance on both quantitative and qualitative methods of research. It includes a variety of features throughout to aid students' understanding and offers practical tips to help students overcome any potential research issues. Building on the success of the first edition, the volume has been fully revised and updated, and contains new chapters on mixed methods and how to make best use of recent technology in research practices. The second edition also benefits from:

- increased coverage of research design strategies including sampling, ethnography and experimental design
- inclusion of computer-mediated data collection techniques, such as online interviews, online focus groups and online observation (netnographic research)
- new and updated international case studies and extracts, with a more even spread of tourism and hospitality examples of research
- online student and lecturer resources, including PowerPoint slides and a test bank of multiple choice and true/false questions for each chapter.

Hospitality Branding *Cornell University Press*

In recent years the brand has moved squarely into the spotlight as the key to success in the hospitality industry. Business strategy once began with marketing and incorporated branding as one of its elements; today the brand drives marketing within the larger hospitality enterprise. Not only has it become the chief means of attracting customers, it has, more broadly, become the chief organizing principle for most hospitality organizations. The never-ending quest for market share follows trend after trend, from offering ever more elaborate and sophisticated amenities to the use of social media as a marketing tool—all driven by the preeminence of the brand. Chekitan S. Dev's award-winning research has appeared in leading journals including Cornell Hospitality Quarterly, Journal of Marketing, and Harvard Business Review. He is the recipient of several major hospitality research and teaching awards. A former corporate executive with Oberoi Hotels & Resorts, he has served corporate, government, education, advisory, and private equity clients in more than forty countries as consultant, seminar leader, keynote speaker and expert witness. Hospitality Branding brings together the most important insights from the author's many years of research and experience, all in a single, affordably priced volume (available in both print and eBook formats). Skillfully blending the knowledge of recent history, the wisdom of cutting-edge research, and promise of future trends, this book offers hospitality organizations the advice they need to survive and thrive in today's competitive global business environment.

New Frontiers in Hospitality and Tourism Management in Africa *Springer Nature*

This book provides a management perspective on the full historical, contemporary, and geographic landscape of hospitality and tourism (H&T) in Africa. In so doing, it critically assesses and challenges the applicability of Western theories within the African context and draws attention to the insights offered by African management concepts. A variety of key topics are examined, including, for example, H&T management practices and management innovation in Africa, the drivers of and variation in uptake of Western management practices, policies and strategies to promote the development of H&T organizations, the influence of management practices on the competitiveness of African countries as tourism destinations, and areas for improvement of H&T organizations in Africa in the digital age. The approach is multidisciplinary. Both local and global perspectives are presented by authors from Africa, Europe, North America, and Asia, with inclusion of intra- and inter-country comparisons. This book will be essential reading for scholars, students, businesses, and policy makers with an interest in H&T in Africa.

Global Alliances in Tourism and Hospitality Management *Psychology Press*

Target your business strategies to fit specific tourist cultures! Since Thomas Cook packaged the first tour in 1841, hospitality and tourism enterprises have forged long-term alliances with one another. Yet research suggests that most such alliances will fail. What goes wrong? How can tourism professionals take advantage of all the benefits of international cooperation while minimizing the potentially disastrous risks of failure? Global Alliances in Tourism and Hospitality Management provides empirical research, case studies, and theory to help you make the right decisions about this potentially high-profit strategy. To compete in the world travel market, a firm must increase its ability to reach, serve, and satisfy its target markets, while lowering costs. Making an alliance is often the most efficient and effective way to reach these twin goals. However, many firms make alliances without sufficient planning and end up paying the price in failed tours, dissatisfied customers, and damaged reputation. The five critical questions that must be answered before creating a partnership include: Do we want to partner? Do we have an ability to partner? With whom do we partner? How do we partner? How do we sustain and renew a partnership over time? Global Alliances in Tourism and Hospitality Management offers specific, detailed ideas and research on vital topics, including: deciding how and when to form alliances handling multicultural management issues identifying the basic elements of successful--and not so successful--partnerships discovering the effects of culture on purchasing decisions dealing with conflicts within alliances ensuring cross-agency cooperation The development and management of alliances is a critical skill. Global Alliances in Tourism and Hospitality Management provides you with the strategies you need to build successful alliances. International in scope, this informative guide will help marketers, managers, and other professionals in the hospitality industry to lower company costs, raise profits, and gain strategic advantages in diversified markets.

Emerging Transformations in Tourism and Hospitality

"This significant and timely volume critically discusses the effects of emerging trends and shifting dynamics on the tourism and hospitality industry at local, regional, national and international levels in a holistic manner. This book offers a multi-disciplinary and inter-disciplinary approach and examines emerging topics such as technology and disruptive economies as well as the Covid-19 pandemic that are likely to change the future of the industry, either positively or negatively. The book thus advances the knowledge surrounding emergent controversies pertaining to tourism and hospitality including the growth of alternative business models (e.g. sharing economy business models), travel in light of climate change, and human resource ethics given the increasing adoption of artificial intelligence (AI), data and algorithms. Offering a platform for the critical discussion of pertinent transformations and, as such, providing theoretical and practical insights, this book will be of great value to destination planners, policymakers, industry practitioners, educators and upper-level students of tourism and hospitality"--

Life Cycle Assessment (LCA) and Life Cycle Analysis in Tourism**A Critical Review of Applications and Implications** *Springer*

Tourism is an activity that anyone can take part in, regardless of their age, gender, nationality or level of income. This makes tourism one of the most rapidly developing industries in the world. Despite the number of benefits which tourism produces, it also has significant negative impacts on the environment. To minimise the scope of these negative impacts, joint efforts combining tourism and environmental management are called for. This book examines the application of the Life Cycle Assessment (LCA) method and lifecycle thinking as a tool to generate more accurate and holistic appraisals of the environmental impacts of tourism. Looking at the issue of sustainability of tourism operations, the book evaluates how it can be improved. It highlights the potential of LCA to affect tourist behaviour and contribute to tourism policy-making and managerial practice. This book provides a valuable resource for undergraduates, postgraduates and researchers interested in sustainable tourism, sustainable development and environmental impact assessment.
