Mathematical Biology & Archaeology - Mathematics ...

In archaeology, a typology is the result of the classification of things according to their physical characteristics. The products of the classification, i.e. the classes, are also called types. Most archaeological typologies organize portable artifacts into types, but typologies of larger structures, including buildings, field monuments, fortifications or roads, are equally possible.

Typology (archaeology) - Wikipedia

In recent decades, archaeologists working on sites such as the Mary Rose have recovered a range of simple mathematical instruments. Compared to typical museum artefacts, they are relatively humble wooden devices. Yet they shed important light on the distribution and variety of mathematical skills in early modern England.
