(PDF) The Importance of Environmental Psychology in Design ...

The Ohio State University City & Regional Planning Program, in the School of Architecture, offers a specialization in environmental psychology (urban design/physical planning and behavior) at both the master's and PhD level. Dissertations have examined such topics

as environmental aesthetics, spatial cognition, ethnic enclaves, neighborhood decline, neighborhood satisfaction, restorative and livable places, and behavior change.

Environmental psychology - Wikipedia

Interior design psychology is a field within environmental psychology, which concerns the environmental conditions of the interior. It is a direct study of the relationship between an environment and how that environment affects the behaviour of its inhabitants, with the aim of maximising the positive effects of this relationship. Through interior design psychology the

performance and efficiency of the space and the wellbeing of the individual are improved. Figures like Walter Benjamin, Sigmund

described in terms of several physical and social dimensions, including their geographical location, architectural design, membership and social organization.

Interior design psychology - Wikipedia

Environmental psychology is the study of human behavior and well-being in relation to the large-scale, sociophysical environment. The term, large-scale environment, refers to places such as homes, offices, neighborhoods, and whole communities. These places can be

Environmental Psychology - Free Course by UC Irvine on ...

Environmental Psychology can also concern itself with interior building design, so a further option would be to take a relevant architecture or interior design degree, and then take a psychology minor and focus your project work on Environmental Psychology.
