Abstract. In this paper I consider whether traditional behaviors of animals, like traditions of humans, are transmitted by imitation learning.

Review of the literature on problem solving by captive primates, and detailed consideration of two widely cited instances of purported learning by imitation and of culture in free-living primates (sweet-potato washing by Japanese macaques and termite fishing by

chimpanzees), suggests that nonhuman primates do not learn to solve problems by imitation.

The question of animal culture | SpringerLink

Fifty years ago, a troop of Japanese macaques was observed washing sandy sweet potatoes in a stream, sending ripples through the fields of ethology, comparative psychology, and cultural anthropology. The issue of animal culture has been hotly debated ever since. Now Kevin Laland and Bennett Galef have gathered key voices in the often rancorous debate to summarize the views along the continuum from "Culture?

The Question of

Animal Culture — Kevin N. Laland, Bennett ...

The main task of The Question of Animal Culture is to bring together the best minds to provide their research and perspectives on animal culture, to provide the data they feel addresses the question of culture in animals, and to consider the ways in which animal and human cultures are similar or different. The book accomplishes this task both credibly and elegantly.
