 A Unified Theory of Our Law” Normative
vs. Positive

Kelsenian Legal Science And The

The last part involves an examination of the continued pertinence of Kelsenian legal science as a theory of the nature of law with a particular focus upon contemporary non-positivist theories of law. The conclusion discusses the increasing distance of contemporary theories of legal positivism from a Kelsenian notion of legal science in its

consideration of the nature of law.

Legal scientists or those with a background in both science and the law is a growing career field. Increased interest in biotechnology, the pervasiveness of biotechnology products in daily life, and escalating numbers of patent filings and intellectual property (IP) infringement cases, has caused a high demand for lawyers with scientific and technology backgrounds.
