Poultry must have continual access to feed in properly-adjusted feeders, otherwise they will not grow or lay well. These can also be made from local material, or purchased. Feeders must always have a lid to stop birds from entering the feeder. An inexpensive spring balance for weighing birds, feed, eggs and other things, you will find to be very useful.

MODULE: POULTRY PRODUCTION TRAINING COURSE

Poultry convert feed into food products quickly, efficiently, and with relatively low environmental impact compared with other livestock. The high rate of productivity of poultry results in relatively high nutrient needs. Poultry require the presence of at least 38 dietary nutrients in appropriate concentrations and balance.
