Activate and configure Document IDs in a site collection ...

At the beginning, the Document ID of documents was like this: "custom prefix" + 3 digit number (document library id) + sequential number I.E. "myprefix-104-10" After few projects (may be 50), the "document library id" has changed from 3 digit to 10. So the Document ID is like this: "myprefix-1038123417-16" Now there are 115 projects in total.

The Document ID length becomes too long

Document ID is a feature available at a site collection level in SharePoint that assigns each document uploaded to SharePoint a unique ID. This ID allows us to quickly find a document within SharePoint by this uniquely assigned number. Moreover, the documents also get a permanent URL (via the same unique Document ID assigned to it).

How to track documents in SharePoint using Document ID ...

Once the Document ID Service is enabled, every new or edited document instantly gets a Document ID assigned. However, historical documents do not get an immediate Document ID assignment. The assignment of Document IDs to documents that were uploaded prior to this service being enabled are assigned by a Timer Job called the "Document ID assignment job" that exists

at the Web Application level.

SharePoint Document IDs explained | Reality-Tech

From the MSDN article:

<http://msdn.microsoft.com/en-us/library/ee559302.aspx>, specifically the section on "Document ID lookup behaviour", we are informed that SharePoint takes a two-part approach to locating the document via the Document ID, first trying search, which if the document has been indexed correctly, will return a single result and will cause a redirect to the document itself via the link provided by search. If search returns no results (e.g. the document has just been added ...

The trouble with Document IDs | The SharePoint Grind

1-go to Central Administration site and Under Monitoring -> Review job definitions , make sure the view in the top right is selected for All then find "Document ID enable/disable job" -> click on it then click "Run Now" button , you will find also another job "Document ID assignment job " this job for add document ID for all old documents , it's created when you check the option "reset all" - review step "6"

In this SharePoint tutorial, we will discuss, how to reset list item id in a SharePoint 2013/2016 list. We will be able to know, how to reset id number in the SharePoint list. Every SharePoint list item will have one ID associated with it. If you have 5 items and you delete all 5 items from the SharePoint list then next

Reset List Item ID in SharePoint 2013/2016 - EnjoySharePoint

Document ID feature only makes sense if you use Document ID for the sake of assigning a unique ID to each document in your tenant. With modern SharePoint sites, if you move the document between document libraries on the same SharePoint site - the link is kept anyway and is not broken even without a Document ID feature enabled.
