Not illustrated. 1887 Excerpt: ...unmindful that they must first go to school and learn the art of war from its very beginnings, and right at that point their sorrows began. I think the greatest cross they bore consisted in being compelled to settle down in home camp, as some regiments did for months, waiting to be sent off. Here they were in sight of home in many cases, yet outside of its comforts to a large extent; soldiers, yet out of danger; bidding their friends a tender adieu to-day, because they are to leave them--perhaps forever--to-morrow. But the morrow comes, and finds them still in camp. Yes, there were soldiers who bade their friends a long good-by in the morning, and started for camp expecting that very noon or afternoon to leave for the tented field, but who at night returned again to spend a few hours more at the homestead, as the departure of the regiment had been unexpectedly deferred. The soldiers underwent a great deal of wear and tear from false alarms of this kind, owing to various reasons. Sometimes the regiment failed to depart because it was not full; sometimes it was awaiting its field officers; sometimes complete equipments were not to be had; sometimes it was

delayed to join an expedition not yet ready; and thus, in one way or other, the men and their friends were kept long on the tiptoe of expectation. Whenever a rumor became prevalent that the regiment was surely going to leave on a certain day near at hand, straightway there was an exodus from camp for home, some obtaining a furlough, but more going without one, to take another touching leave all around, for the dozenth time perhaps. Many of those who lived too far away to be sure of returning in time, remained in camp, and telegraphed friends to meet them at some large centre, as they passed through on the sp...

Coffee

A Dark History

This is the tale of the wildfire spread of the consumption of a drink which is embedded in our history and our daily cultural life. The coffee industry worldwide employs more people - 30 million - than any other. It is the lifeblood of many third world countries, either earning them invaluable foreign currency or enslaving them to the monster that is modern global capitalism, depending on how you look at it. From obscure beginnings in East Africa a millennia ago and its early days as an aid to religious devotion, coffee became an integral part of the rise of European mercantilism from the 17th-century onwards. As well as being a valued trading commodity, it was the preferred beverage of the merchants who did the trading. The rise of the coffee house and the City of London were inextricably, perhaps even mysteriously linked.

The Bulletproof Diet

Lose Up to a Pound a Day, Reclaim Energy and Focus, Upgrade Your Life *Rodale Books*

In his mid-twenties, Dave Asprey was a successful Silicon Valley multimillionaire. He also weighed 300 pounds, despite the fact that he was doing what doctors recommended: eating 1,800 calories a day and working out 90 minutes a day, six times a week. When his excess fat started causing brain fog and food cravings sapped his energy and willpower, Asprey turned to the same hacking techniques that made his fortune to "hack" his own biology, investing more than \$300,000 and 15 years to uncover what was hindering his energy, performance, appearance, and happiness. From private brain EEG facilities to remote monasteries in Tibet, through radioactive brain scans, blood chemistry work, nervous system testing, and more, he explored traditional and alternative technologies to reach his physical and mental prime. The result? The Bulletproof Diet, an anti-inflammatory program for hunger-free, rapid weight loss and peak performance. The Bulletproof Diet will challenge—and change—the way you think about weight loss and wellness. You will skip breakfast, stop counting calories, eat high levels of healthy saturated fat, work out and sleep less, and add smart supplements. In doing so, you'll gain energy, build lean muscle, and watch the pounds melt off. By ditching traditional "diet" thinking, Asprey went from being overweight and sick in his twenties to maintaining a 100-pound weight loss, increasing his IQ, and feeling better than ever in his forties. The Bulletproof Diet is your blueprint to a better life.

Coffeeland

One Man's Dark Empire and the Making of Our Favorite Drug *Penguin*

A New York Times Book Review Editors' Choice "Extremely wide-ranging and well researched . . . In a tradition of protest literature rooted more in William Blake than in Marx." —Adam Gopnik, The New Yorker The epic story of how coffee connected and divided the modern world Coffee is an indispensable part of daily life for billions of people around the world. But few coffee drinkers know this story. It centers on the volcanic highlands of El Salvador, where James Hill, born in the slums of Manchester, England, founded one of the world's great coffee dynasties at the turn of the twentieth century. Adapting the innovations of the Industrial Revolution to plantation agriculture, Hill helped turn El Salvador into perhaps the most intensive monoculture in modern history—a place of extraordinary productivity, inequality, and violence. In the process, both El Salvador and the United States earned the nickname "Coffeeland," but for starkly different reasons, and with consequences that reach into the present. Provoking a reconsideration of what it means to be connected to faraway people and places, Coffeeland tells the hidden and surprising story of one of the most valuable commodities in the history of global capitalism.

Never Get Their Coffee

Empowering Fearless Leadership *Leaders Press*

For fans of Rachel Hollis and Rachel Rodgers, here's a fast read that is sure to inspire the unapologetic, shame-free embrace of not playing small in life. Ladies, leadership, and legacy! Like gravity, sowing and reaping is a natural law of life—you simply reap what you sow. It naturally plays and pays out, until it DOESN'T. Time and again, history has shown that until society learns and positively changes from the past with its deeply-rooted thought patterns and norms, we are condemned to repeat its many trappings, stereotypes, and shortcomings. *Never Get Their Coffee* is a call to action and underscores the glass ceiling disparities of gender equity in the marketplace. However, its focus fixates on helping shape societal strides in fueling fearless leadership, and its mission is in inspiring faith and tenacity of the human spirit to dream a dream, sow a thought, reap an action...a habit...a character...and ultimately to discover one's destiny. Woods' challenge for all her readers is that death is no respecter of persons—stop apologizing for success, aim high, dream deeply, and start living your divine calling. Become doers of destiny.

He leaves San Francisco and travels deep into his ancestral homeland to tour terraced farms high in the country's rugged mountains and meet beleaguered but determined farmers. But when war engulfs the country and Saudi bombs rain down, Mokhtar has to find a way out of Yemen without sacrificing his dreams or abandoning his people.

Search History *Coffee House Press*

Search History oscillates between a wild cyberdog chase and lunch-date monologues as Eugene Lim deconstructs grieving and

storytelling with uncanny juxtapositions and subversive satire. Frank Exit is dead—or is he? While eavesdropping on two women discussing a dog-sitting gig over lunch, a bereft friend comes to a shocking realization: Frank has been reincarnated as a dog! This epiphany launches a series of adventures—interlaced with digressions about AI-generated fiction, virtual reality, Asian American identity in the arts, and lost parents—as an unlikely cast of accomplices and enemies pursues the mysterious canine. In elliptical, propulsive prose, Search History plumbs the depths of personal and collective consciousness, questioning what we consume, how we grieve, and the stories we tell ourselves.

The Magic Cup

A Business Parable About a Leader, a Team, and the Power of Putting People and Values First *Center Street*

We all love the fairy tales we grew up on, creating a world in which good always wins over evil, where those whose hearts are true and who do the right thing come out on top. But, grown-up competition for success is rough, even cutthroat, and we've often heard that nice guys finish last. Not according to Howard Behar, whose career as one of the three leaders who built the Starbucks organization most definitely proves that nice guys finish first. In *THE MAGIC CUP*, Behar spins an engaging corporate tale to teach us exactly how we can do the same thing. The story revolves around Vince Steadfast, the newly named CEO of imaginary manufacturer Verity Glassworks, which has fallen on difficult times. Vince is hired to help the once iconic company return to its glory days, and he brings with him a parting gift from his mentor and former boss: a stunning crystal coffee cup from Verity's halcyon days. The cup turns out to be magic - truly - and helps him come to understand and reinvigorate the values that Verity has misplaced along the way. As Vince and his new team make their way to (and through) many challenges, including the aptly named Worthy Way, Perilous Passage and Arduous Stair, the cup fills with a gold elixir and the universal truths that they learn to embrace - such as Responsibility, Forgiveness and Courage - magically become engraved in the glass. In the tradition of great parable writers throughout history, Behar quickly involves us in an engrossing fantasy, continually challenging us to compare each situation with our own real-life experiences. The story of *THE MAGIC CUP* helps each of us discover that only by acting on sound moral principles can we fill our own cups with the personal and professional success and satisfaction we seek.

Accidentally Wes Anderson *Hachette UK*

Wes Anderson's beloved films announce themselves through a singular aesthetic - one that seems too vivid, unique, and meticulously constructed to possibly be real. Not so - in *Accidentally Wes Anderson*, Wally Koval collects the world's most Anderson-like sites in all their faded grandeur and pop-pastel colours, telling the story behind each stranger than-fiction-location. Based on the viral online phenomenon and community of the same name, *Accidentally Wes Anderson* celebrates the unique aesthetic that millions of Anderson fans love - capturing the symmetrical, the atypical, the unexpected, the vibrantly patterned, and distinctively coloured in arresting photographs from around the world. Authorised by Wes Anderson himself, and appealing to the millions who love his films, this book is also for fans of *Cabin Porn* and *Van Life* - and avid travellers and aspiring adventurers of all kinds.
