Critical Care Nutrition at the Clinical Evaluation ...

Purpose: To provide evidence-based guidelines for early enteral nutrition (EEN) during critical illness. Methods: We aimed to compare EEN vs. early parenteral nutrition (PN) and vs. delayed EN. We defined "early" EN as EN started within 48 h independent of type or amount. We listed, a priori, conditions in which EN is often delayed, and performed systematic reviews in 24 such subtopics.

Critical Care Nutrition - Critical Care Nutrition

Abstract Objective: This study was conducted to develop evidence-based clinical practice guidelines for nutrition support (ie, enteral and parenteral nutrition) in mechanically ventilated critically ill adults.

Canadian clinical practice guidelines for nutrition ...

Historically, randomized controlled trials (RCTs) in critical care have used mortality as the primary outcome, yet most show no effect on this outcome. Therefore, there has been a shift in the literature to focus on alternative outcomes. This review aimed to describe primary outcomes selected in RCTs of nutrition interventions in critical illness.
