the oil pump could be getting. I had the same problem with mine it was the sensor. Sign in to reply.

what does it mean when the oil light keep flkicking on ...

The oil pressure sensor on the 2007 Chevrolet Impala is located in the side of the block. It features a three-wire connector. It senses oil pressure and sends the pressure signal to the gauge, so the driver can tell if the oil pressure is too low. If the oil pressure is low, the engine could be low on oil. Because of leaks, the oil pump might not be working properly, or the crankshaft may have a crack in it.
