Ross 708. The Ross 708 parent stock has been developed to maximize breeder performance without compromising the efficiency of meat production. High meat yielding birds require emphasis to be placed on the improvement of key traits. As feed is the largest single cost component in the production of chicken meat, maintaining feed conversion efficiency is of paramount importance particularly where broilers are grown to heavy weights.

Ross | Aviagen

Aviagen Broiler Breeders supplies day-old grandparent and parent stock chicks to customers in 130 countries worldwide under the Arbor Acres, Indian River, and Ross brand names. These brands are among the most recognized and respected names in the industry and each has a proven record of success in addition to a large and loyal global customer base.

Aviagen | Aviagen

This Pocket Guide summarizes best practice management for parent stock that receive first light stimulation after 21 weeks (147 days) of age and achieve 5% production at 25 weeks of age. However, poultry production is a global activity and

across the world, differing management strategies may need to be adapted for local conditions.
