An angel of mercy or angel of death is a type of criminal offender who is usually employed as a caregiver and intentionally harms or kills people under their care. The angel of mercy is often in a position of power and may decide the victim would be better off if they no longer suffered from whatever severe illness is plaguing them. This person then uses their knowledge to kill the victim. In some cases, as time goes on, this behavior escalates to

encompass the healthy and the easily treated.

Mengele describes the international search in 1985, which ended in a cemetery in Sao Paulo and the forensic investigation that produced overwhelming evidence that Mengele had died-but failed to convince those who, arguably, most wanted him dead. This is a story of science without limits, escape without freedom and resolution without justice.
