Google Scholar provides a simple way to broadly search for scholarly literature. Search across a wide variety of disciplines and sources: articles, theses, books, abstracts and court opinions.

Google Scholar

Scholarly communication is the process of academics, scholars and researchers sharing and publishing their research findings so that they are available to the wider academic community and beyond. Traditionally scholarly communication has occurred in the formal literature - in journal articles, conference

proceedings, book chapters and books. However as the image below demonstrates, the landscape is changing dramatically.

About scholarly communication | Scholarly Communication

Changing the Culture in Scholarly Communications "All too often, leaders see cultural initiatives as a last resort, except for top-down exhortations to change... But cultural intervention can and should be an early priority—a way to clarify what your company is capable of, even as you refine your strategy."

Changing the Culture in Scholarly Communications - The ...

Scholarly

communication covers a wide spectrum of activity, broadly in two areas – publishing and disseminating the results of research, and providing access to the published material. These activities have been the focus of much research in recent years, particularly in relation to academic journal articles and the movement for open access to journal articles, made possible by the increasing availability of content in electronic formats.
