1. ARCHITECTURE AS A SYMBOL OF POWER INTRODUCTION Architecture is and always has been used deliberately and unintentionally to define relationships among individuals, interest groups, cities, and nations.Those relationships, whether adversarial or not, are based on power. Power can be political, economic, social, cultural or any other.

Architecture as a symbol of power - SlideShare

Buildings are often built as a result of proactive policymaking that seeks to endow a city with facilities, especially cultural ones, and by extension, to leave a tangible trace of a government or a personality for future generations. For example, the “great public works projects,” a series of monuments constructed during François Mitterrand’s presidency, are more than just a reflection of France’s cultural policies in the 1980s; they also project an image of a “builder president ...
