Auschwitz Survivor 31321: A Memoir

First One In, Last One Out

Auschwitz Survivor 31321 Createspace Independent Publishing Platform

While growing up in New York, Marilyn Shimon often visited her uncle in California. She saw his scars, gaped at his "31321" tattoo, and listened to his horrific stories of the Holocaust. However, she could not relate to the suffering he endured or understand the significance of his accounts-until now. In this grisly memoir, Marilyn resurrects Murray Scheinberg's stories of six hellish years in Nazi concentration camps during World War II. The Polish Jew was one of the first eight men to enter Auschwitz, as a political prisoner in 1940, and one of the last to escape Dachau. Rejected by a publisher in the 1960s because of its incredible details, this true story, finally available to the public, will shock, horrify, and touch readers. Abraham H. Foxman, national director emeritus at the Anti-Defamation League, says of the book: "First One In, Last One Out: Auschwitz Survivor 31321 is a harrowing tale of endurance, luck, egotism, and morality, one man's story of survival in the face of Nazi brutality and anti-Semitism. Murray Scheinberg's memoir of survival through the Nazi Holocaust symbolizes man's determination to live no matter the odds. But it also represents the degradation of the human spirit imposed on the Jews of Europe by the evil Nazi machine. It is both an uplifting tale and a sorry one about human nature in the face of evil." "A magnificent telling of a moving and heartfelt story." --Ira Hochman, Friendly Visitors Program/Holocaust Survivors "I am moved to tears beyond what I can express. This is an exceptionally incredible story and the author's writing is extremely moving.The story is a testament of life and will teach future generations that good triumphs over evil." --Ruth Baran Gerold, child of Holocaust survivors "The author brilliantly wrote about her uncle's life throughout the Nazi regime. She successfully engages the reader in the emotions and drama of this horrific period.This is a must-read-page turner." -- Larry Klass, Retired Veteran-US Army "It is a powerful and compelling story that should be promoted in schools and read by all." --Faye Kilstein, child of Auschwitz survivor

To My First And Last One Night Stand J.S. Cooper

To Marco (No, I'm not going to add Polo), Last night was a mistake. A big mistake. Or should I say small? I don't want to hurt your ego. I should have listened to your sister. You're insufferable and rude and far too cocky. Don't worry. I won't be telling anyone what happened because as far as I'm concerned it never did. Please stop calling me. I do not need to come and collect my bra from you. Or the t-shirt you lent me to sleep in when I got cold. And no, that one act doesn't make you a gentleman. Far from it. Also, I do not need to have your smell near me to fall asleep. In fact, your shirt does the opposite. It gives me nightmares. Millie P.S. No, I do not want a repeat of last night at my office. I don't care if that's your fantasy or not. Stop texting me your fantasies, by the way. P.P.S. The texts I sent you this morning were drunk texts. I was still hungover. Do not construe them as anything else. P.P.P.S. Could you have given me any more love bites? There was no need to "mark your territory" because I am not yours!

Bow Tie. The First Manuscript of the Richards' Trust W.J. Cherf

Not until the evidence was uncovered by tomb robbers in the 1870s would we have ever known. Then with the discovery of Tutankhamen’s tomb in the 1920s, even more hints beckoned readily at hand. But as with so many things in life, critical clues often go unnoticed until science, accident, and intrigue collide. That collision was initiated by a Polish archaeologist who received permission to collect DNA samples from a group of royal mummies at the Cairo National Museum in 1973. A tragic victim of the Yom Kippur War, his samples sat dormant gathering dust until they were found and processed in 1998.Meanwhile during the early 1970s an international team noticed, while x-raying the same mummy collection, some extremely unexpected physiological details among several of them. As with the radiological data, the chromosomal evidence proved to be equally disquieting. When taken together, they argued for the introduction of a unique genetic anomaly into the human genome during the Egyptian late Eighteenth Dynasty. The source was extraterrestrial.Bow Tie chronicles how an international scientific effort resolved the situation by using a most unusual means for prosecuting a most unscrupulous task – time travel and murder.This is the first manuscript published by the Richards’ Trust in accordance with the posthumous wishes of Egyptologist Joseph William Richards, Ph.D.

Last and first men : a story of the near and far future

Misery Loves Company Ver. 2

Upon This Rock

Book 1 - First Contact *Stack of Firewood Press, A*

An epic new science fiction series about faith, family, and alien invasion in the wilds of Alaska. When a shooting star plunges through the atmosphere and touches down in the Alaska wilderness, only two earthlings are present to witness the event. But they perceive two utterly different realities. What park ranger Jace Kuliak sees is a UFO and the arrival of a dangerous alien species from beyond the solar system. What Poppy Prophecy sees is the star called Wormwood, as recorded in Scripture, and the arrival of an archangel of the Apocalypse. The thing is -- they're both sorta right. Poppy Prophecy is the despotic patriarch of a large End-Times prepper family that is busily converting a depleted copper mine into its own private doomsday bunker. Their copper mine is a century-old relic from territorial days when East Coast robber barons ruled Alaska and plundered its mineral wealth. Today the abandoned mine sits in the middle of the largest, wildest, most majestic national park in the United States. But Poppy isn't impressed by mere earthly beauty, and he doesn't mind bulldozing federal land when it suits his purposes. Backcountry Ranger Jace Kuliak does mind, and he and fellow rangers confront the fundamentalist family in an armed standoff over the construction of an illegal airstrip. It doesn't help matters when Ranger Kuliak falls hopelessly in love with Poppy's second daughter, the lovely, innocent, and totally clueless Deuteronomy. An uneasy truce between the Prophecys and the park service is shattered when the falling star lands in their backyard and is claimed by both sides. What is it? Who is it? Better yet, of all the pit stops on all the planets in all the galaxies, why did the Visitor choose this particular rock to screw with?

The Carbon Trap *CreateSpace*

Environmentalists worry about too much carbon dioxide, but what's too little? What if global financiers manipulated the global warming crisis to gain control over humanity's resources, freedoms, and population? What if someone with the financial and technical abilities decided mankind was a virus and used carbon dioxide trapping technology to plunge population levels by crashing life-essential CO2 to new lows? These are questions Anna Picard must face in The Carbon Trap, the first book in The Carbon Series. At the height of the global warming crisis, the United Nations attempts to control all carbon emissions, and authorizes a series of programs it deems necessary to save humanity. A progressive US government enthusiastically endorses the UN Carbon Trapping program, and to help pay for it, will impose carbon taxes, draconian regulations, and... it will secretly sell Alaska. Anna Picard is an amoral fixer, an employee of Agenda 21 member and global financier Alexis Swanson had trained to help recruit his corporate army and neutralize his enemies. It is her job to unleash a global hacker network to help destroy the carbon based industries and funnel insider-trading profits to Swanson. One of her recruits is Dr. Sven Johansson, a brilliant geneticist and President of Snath Biotechnology, who designs life forms to trap CO2. But Sven has more ambitious plans. At a UN conference in the Maldives held to impose draconian carbon regulations, not everyone is happy, some industrial executives realize data has been falsified. To protect her scheme, Anna frames one of the execs for murder. Her plans are complicated when she falls in love with Dr. Pete Heyward, the son of the man she framed for murder. Pete is a US Marine amputee who sees past her malevolent deeds and tries to rejuvenate the morality of her youth. After a series of genetically modified carbon trapping life forms is unleashed upon the Earth, Anna must confront the evils she helped unleash, and prevent an even bigger disaster from unfolding that would destroy most life on Earth. This is a high-tech ecological thriller that takes the reader from the Maldives, to the French Riviera, and the heartland of Texas. It introduces cutting edge technologies and concepts, used for the first time in a novel, that reveal striking implications for society.

Return of the Eagles *Createspace Independent Publishing Platform*

Mark L. Richards's Legions of the Forest painstakingly crafted the world of AD 9 under the Roman Empire. He invites you back to ancient Europe in his sequel, Return of the Eagles. In the Teutoburg Forest, three Roman legions are ambushed and killed under the orders of Arminius, the leader of a united confederation of German tribes. It is a political disaster for Rome and a personal one for Tribune Valerius Maximus and Centurion Marcellus Veronus, two of the few survivors of the attack. Both are given an opportunity to take their revenge on the barbarians. It's an opportunity given by Germanicus Caesar, a rising star of the empire and nephew to Emperor Tiberius. As Germanicus begins raising an army, Valerius immerses himself in the German language and customs, and Marcellus trains soldiers in the ways of their enemies. While Valerius and Marcellus understand the ambush tactics of their adversaries, many of the army's senior leadership underestimate the barbarian tribes. Valerius and Marcellus are not the same men they were in Legions of the Forest. Will their newfound experience, strength, and spirit be enough to lead Rome to victory? Or will they once again fall prey to the German barbarians?

The First Twenty-One *AuthorHouse*

Many years ago, probably around thirty or forty, I used to relate to friends and family some of the happenings to me when I was very young and when I was growing up, and they seemed amazed that I was able to remember so far back and also in such detail. Now to me it seemed normal, as I lve always thought that when one has some sort of incident or situation that is profound in its entirety, then it is impressed into the brain. Whether it is something traumatic or joyful, it stamps itself into your memory bank. So as Ive said, I was always being asked to try and write down my memories of certain times in my childhood and youth, but of course, the biggest drawback was finding the time to be able to do it when you have a family and are engaged in earning a livingwhich was, of course, the priorityand other things took precedence.
