The State of the World's Land and Water Resources for Food and Agriculture

Managing Systems at Risk *Routledge*
The State of the World's Land and Water Resources for Food and Agriculture is FAO's first flagship publication on the global status of land and water resources. It is an 'advocacy' report, to be published every three to five years, and targeted at senior level decision makers in agriculture as well as in other sectors. SOLAW is aimed at sensitizing its target audience on the status of land resources at global and regional levels and FAO's viewpoint on appropriate recommendations for policy formulation.

SOLAW focuses on these key dimensions of analysis: (i) quantity, quality of land and water resources, (ii) the rate of use and sustainable management of these resources in the context of relevant socio-economic driving factors and concerns, including food security and poverty, and climate change. This is the first time that a global, baseline status report on land and water resources has been made. It is based on several global spatial databases (e.g. land suitability for agriculture, land use and management, land and water degradation and depletion) for which FAO is the world-recognized data source. Topical and emerging issues on land and water are dealt with in an integrated rather than sectoral manner. The implications of the status and trends are

used to advocate remedial interventions which are tailored to major farming systems within different geographic regions.

Those Bones Are Not My Child

A Novel *Vintage*

This suspenseful novel portrays a community--and a family--under siege, during the shocking string of murders of black children in Atlanta in the early 1980s. Written over a span of twelve years, and edited by Toni Morrison, who calls *Those Bones Are Not My Child* the author's magnum opus, Toni Cade

Bambara's last novel leaves us with an enduring and revelatory chronicle of an American nightmare. Having elected its first black mayor in 1980, Atlanta projected an image of political progressiveness and prosperity. But between September 1979 and June 1981, more than forty black children were kidnapped, sexually assaulted, and brutally murdered throughout "The City Too Busy to Hate." Zala Spencer, a mother of three, is barely surviving on the margins of a flourishing economy when she awakens on July 20, 1980 to find her teenage son Sonny missing. As hours turn into days, Zala realizes that Sonny is among the many cases of missing children just beginning to attract national attention. Growing increasingly disillusioned with the authorities, who

respond to Sonny's disappearance with cold indifference, Zala and her estranged husband embark on a desperate search. Through the eyes of a family seized by anguish and terror, we watch a city roiling with political, racial, and class tensions.

Psychological Testing in the Service of Disability Determination *National Academies Press*

The United States Social Security Administration (SSA) administers two disability programs: Social Security Disability Insurance (SSDI), for disabled individuals, and their dependent family members, who have worked and contributed to the Social Security trust funds, and Supplemental Security Income (SSI), which is a means-tested

program based on income and financial assets for adults aged 65 years or older and disabled adults and children. Both programs require that claimants have a disability and meet specific medical criteria in order to qualify for benefits. SSA establishes the presence of a medically-determined impairment in individuals with mental disorders other than intellectual disability through the use of standard diagnostic criteria, which include symptoms and signs. These impairments are established largely on reports of signs and symptoms of impairment and functional limitation. Psychological Testing in the Service of Disability Determination considers the use of psychological tests in evaluating disability claims submitted to the SSA. This report critically reviews selected

psychological tests, including symptom validity tests, that could contribute to SSA disability determinations. The report discusses the possible uses of such tests and their contribution to disability determinations. Psychological Testing in the Service of Disability Determination discusses testing norms, qualifications for administration of tests, administration of tests, and reporting results. The recommendations of this report will help SSA improve the consistency and accuracy of disability determination in certain cases.

The Heart of a Woman *Graphic Arts Books*

A young couple falls on hard times when the man is accused of murdering his cousin after he makes a claim on their

uncle's fortune. Together, they must uncover the truth to save their relationship and repair his name. Louise Harris is a bright and beautiful young woman. She's being courted by Luke de Mountford, the purported heir to his uncle's fortune. While the couple plans to marry, their future is threatened by the arrival of Philip de Mountford, Luke's cousin. He is considered a viable successor to the Mountford family estate. When he is found stabbed, Luke is viewed as a prime suspect due to his relation and clear motive. Despite the situation, Louise believes he's innocent and plans to support him through the trial. *The Heart of a Woman* isn't a whimsical romance.
