It is also developing systems for the emerging field of longevity medicine enabling physicians to make better decisions on the interventions that may slow down, or reverse the aging processes.

Deep Longevity developed Longevity as a Service (LaaS)© solution to integrate multiple deep biomarkers of aging dubbed “deep aging clocks” to provide a universal multifactorial measure of human biological age.

Deep Longevity

An entire industry is coalescing around human longevity, promising to beat these age-related diseases and extend our lives to biblical proportions. We've been covering the topic of life extension for more than five years, beginning with a profile on an anti-aging company called Human Longevity Inc , whose founders include billionaire serial entrepreneur Peter Diamandis and J. Craig Venter , a leading genomics expert.

The Top 10 Companies Working to Increase Longevity

The FDA doesn't consider aging to be a medical indication (a.k.a. a valid reason for treatment). This means longevity companies have to choose an existing age-related indication (e.g. Alzheimer's) to demonstrate efficacy of their treatment on. How to do this well is a key consideration for any longevity biotech.

(How) should we pursue human longevity? - Milan Cvitkovic

The word "longevity" is sometimes used as a synonym for "life expectancy" in demography. However, the term longevity is sometimes meant to refer only to especially long-lived members of a population, whereas life expectancy is always defined statistically as the average number of years remaining at a given age. For example, a population's life expectancy at birth is the same as the average age at death for all people born in the same year. Longevity is best thought of as a term for general audie

Longevity - Wikipedia

The big sea change of the past 10 to 15 years in aging research is that the scientific community is now near entirely behind the idea that aging is a viable target for therapy, and that we should be working towards greater healthy human longevity. Prior to this time, aging was near entirely a "look but don't touch" field, in which any talk of medical intervention in aging was strongly discouraged.
