Thinking And Destiny *Motilal Banarsidass Publ.*

In Thinking and Destiny, something new, although older than time, is now made known to the world--about Consciousness. The information is largely about the makeup of the human, where man comes from, what becomes of him; it explains what thinking is; it tells how a thought is created, and how thoughts are exteriorized into acts, objects and events, and how they make his destiny. Destiny is thus shown to be self-determined by thinking; and the process of re-existence and the after-death states are told in detail. A single reading of any one chapter of Thinking and Destiny brings rich rewards in new understanding of life's puzzling mysteries. To read the entire book is to come nearer to knowledge of one's destiny and how to shape it than is possible through study of anything previously written in the English language. Both the casually curious glancer at books and the most avid seeker for knowledge will be intrigued by the index, which lists more than 400 subjects in Thinking and Destiny, and by the fifteen chapter headings in the Table of Contents, which identify the 156 sections. The Foreword contains the only pages in which Mr. Percival uses the first personal pronoun. Here he relates some of the amazing experiences through which he was able to grasp the

knowledge he transmits, and to acquire the ability to do so.

Armchair Fiction presents extra large science fiction double novels with original illustrations. "Dark Destiny" by Dwight V. Swain is the first novel. He was known throughout the system as Sha Haral, a fierce space warrior with a lust for power. He'd blasted his way back and forth across the spaceways many times. However, Haral's fortunes had taken a turn for the worse, and he soon became a downtrodden, bitter would-be conqueror haunting the dives on a backwater planet called Ulna. But his fate took an unexpected turn when a beautiful blonde-haired priestess, fleeing from a space pirate's hordes, fell into his lap. From this priestess Haral learned of an ancient woman-goddess who, according to legend, lay sleeping in a lost city surrounded by a legion of terrifying monsters. This ancient goddess, whose face was half-hidden by a jeweled veil, was known as a woman of ultimate beauty, possessing secrets of great power. And she still lay there, in

her crumbling city, waiting for someone to awaken her... The second novel, "The Secret of Planetoid 88," is by Ed Earl Repp. Dane Cabot was just one of many slaves of the dictators--"The Hundred" as they were known--who ruled Earth with an iron hand. After a joy ride to a distant planetoid, Cabot returned to Earth to find himself falsely accused of murder. There was no trial--The Hundred didn't operate that way. He was soon sentenced to die. But when a mysterious stranger interceded, Cabot found himself a stowaway on a space cruiser headed for Io, moon of Jupiter. There Cabot found a tiny colony of rebels with a master plan for the eventual freedom of Earth's enslaved populace. But radiation from Jupiter's Great Red Spot was slowly destroying Io. So Cabot and his fellow rebels found themselves in a desperate race against time. Could they orchestrate their plans before the rising tide of planet-wide disintegration overtook them? Deep in the void of space was a secret, a secret that was the key to freedom--if they could find it in time...

The Secret History of Pythagoras

THE Translation of this venerable Piece of Antiquity is undertook upon a double Score; being designed as well to entertain the Curiosity of the Learned, as to supply the Defects of the Ignorant. If the original Language would have been more acceptable to the one, it would have been less intelligible to the other. I cannot, without uttering a Falsity, venture to affirm that so singular and valuable a Piece will be made Public, at least as yet: And in the mean Time I shall flatter myself, that this little Essay may contribute in some sort or other to the diversion, if not Instruction, of People in every Condition of Life. If this is well received, the other Parts will make their Appearance at proper Distances of Time. I publish no more at present, because I would not be thought to impose too much upon any one's Patience; as for losing my own Labour, I am under no bad Apprehensions about that; for the Reader cannot reject with a greater Disdain, than I have translated with Pleasure, the Contents of this Book.
