A decade after major structural reforms, pension reform has again become a burning issue in Central and Eastern Europe. Indisputably, social security systems have played an important role in mitigating the adverse impact of the

global economic crisis on the population. However, social security systems – notably pension systems – in Central and Eastern Europe are under pressure of short-term financial consolidation due

Pension Reform in Central and Eastern Europe

Pension reforms in the EU In order to enhance fiscal sustainability, while maintaining adequate pension income, most EU Member States have carried out gradual and substantial pension reforms over the last decades. The intensity of pension reforms has been particularly strong since 2000. These reforms generally comprised a wide range of measures.
