I've written before about "Ten Great Public Health Achievements of the 20th Century," which the Centers for Disease Control and Prevention published in 1999. Now, CDC has put together a list of ten great public health achievements from 2001 to 2010, based on nominations from the agency's public health scientists. Here are the ten achievements from the first decade of the 21st century:

Public Health Achievements in the 21st Century

Ann Arbor, MI, October 16, 2014. Although disease outbreaks and epidemics drawing worldwide attention emphasize the importance and acute need for public health professionals, the world faces a longer-term challenge—a public health workforce that is truly effective in the 21st century. In a new supplement to the American Journal of Preventive Medicine, experts address critical challenges to public health, from workforce development, capacity building, partnership and collaborations, and ...
