2003 johnson outboard trim and tilt manual - Free Textbook PDF

The power trim and tilt system used on Johnson outboard motors serves two purposes. The first is to trim your boat to optimize the laminar flow between the hull and the water -- it gets up on plane faster and rides better. The second function, tilt, allows you to raise your motor for beaching, trailering or docking in salt water, when you want to prevent the accumulation of salt deposits in the raw water cooling system.
