150 Essential Insights on Leadership *Harvest House Publishers*

“The best leaders bring all of the resources in their world into play to accomplish something great.” John Maxwell. Influential author and teacher John C. Maxwell travels around the world to meet with people of all backgrounds, helping them discover their God-given purpose. Whether you are called to lead or you're simply seeking God's direction for your life, you will benefit from his valuable insights on... Taking Action: "In the beginning, you just need to get moving. Try different things. It's much easier to start doing something right if you've already started doing something. Dreaming Big: "Dreams are valuable commodities. They propel us forward. They give us energy. They make us enthusiastic. Everyone ought to have a dream." Investing in Others: "One of the ironies of leadership is that you become a better leader by sharing whatever power you have, not by saving it all for yourself. You're meant to be a river, not a reservoir. If you use your power to empower others, your leadership will extend far beyond your grasp." Let John's words inspire you to make a difference in your home, your workplace, and your world.

No Limits

Blow the CAP Off Your Capacity *Center Street*

#1 New York Times bestselling author John C. Maxwell's latest book will enhance the lives of leaders, professionals, and anyone who wants to achieve success and personal growth. We often treat the word capacity as if it were a natural law of limitation. Unfortunately, most of us are much more comfortable defining what we perceive as off limits rather than what's really possible. Could it be that many of us have failed to expand our potential because we have allowed what we perceive as capacity to define us? What if our limits are not really our limits? In his newest book, John Maxwell identifies 17 core capacities. Some of these are abilities we all already possess, such as

energy, creativity and leadership. Others are aspects of our lives controlled by our choices, like our attitudes, character, and intentionality. Maxwell examines each of these capacities, and provides clear and actionable advice on how you can increase your potential in each. He will guide you on how to identify, grow, and apply your critical capacities. Once you've blown the "cap" off your capacities, you'll find yourself more successful--and fulfilled--in your daily life.

John explains how and why "Champions don't become champions in the ring—they are merely recognized there."

The Law of Solid Ground

If only Robert McNamara had known the Law of Solid Ground, the War in Vietnam, and everything that happened at home because of it, might have turned out differently.

The 5 Levels of Leadership

Proven Steps to Maximize Your Potential *Center Street*

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become

more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to. 3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.

Each law of leadership is like a tool to help you achieve your dreams and add value to the lives of other people. In The Law of Respect, you will learn why: Leaders go their own way when a group first comes together People change direction to follow the strongest leaders People naturally align themselves and follow leaders stronger than themselves Major change tests respect for a leader Each lesson also provides a real-life example, and tools for personal assessment and application.

Books can guide what we do and our lives. Many of us love books while reading them and maybe they will echo with us a few weeks after but 2 years later we can't remember if we have read it or not. And that's a shame. We remember that at that time, the book meant a lot to us. Why is it that 2 years later we have forgotten everything? That's not good. This

summary is taken from the most important themes of the original book. Most people don't like books. People just want to know what the book says they have to do. If you trust the source you don't need the arguments. So much of a book is arguing its points, but often you don't need the argument if you trust the source you can just get the point. This summary takes the effort to distill the blahs into themes for the people who are just not going to read the whole book. All this information is in the original book.
