The Economic History Of World

The economic history of the world is a record of the economic activities (i.e. the production, distribution and consumption of goods and services) of all humans, spanning both recorded history and evidenced prehistory.

Economic history of the world - Wikipedia

The basic outline of world economic history is surprisingly simple. Indeed it can be summarized in one diagram: figure 1.1. Before 1800 income per

person —the food, clothing, heat, light, and housing available per head—varied across societies and epochs. But there was no upward trend. A simple but powerful mechanism explained in this book, the

Introduction: The Sixteen-Page Economic History of the World

World economic history since 1800 has largely been one of how the international economic system adjusted to the dramatic asymmetric shock that was the Industrial Revolution.³ The transition to modern economic growth created a system that was lopsided in the extreme.
