Translating Expressions and Equations. Some words can be translated into math, and some math can be translated into words, and neither require the babel fish from The Hitchhiker's Guide to the Galaxy. When we translate words to math, most are replaced by symbols in the order that they're written. To translate "seven plus a number," we replace the word seven with the number 7, replace the word plus with the addition sign, and replace the phrase "a number" with a variable like x to get:
