How Schools and Parents Around the World are Inspiring Greatness, One Child at a Time *Simon and Schuster*

Children in today's world are inundated with information about who to be, what to do and how to live. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective Peopleto a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. The 8th Habit

From Effectiveness to Greatness *Simon and Schuster*

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

Stumbling on Happiness *Vintage Canada*

A smart and funny book by a prominent Harvard psychologist, which uses groundbreaking research and (often hilarious) anecdotes to show us why we're so lousy at predicting what will make us happy - and what we can do about it. Most of us spend our lives steering ourselves toward the best of all possible futures, only to find that tomorrow rarely turns out as we had expected. Why? As Harvard psychologist Daniel Gilbert explains, when people try to imagine what the future will hold, they make some basic and consistent mistakes. Just as memory plays tricks on us when we try to look backward in time, so does imagination play tricks when we try to look forward. Using cutting-edge research, much of it original, Gilbert shakes, cajoles, persuades, tricks and jokes us into accepting the fact that happiness is not really what or where we thought it was. Among the unexpected questions he poses: Why are conjoined twins no less happy than the general population? When you go out to eat, is it better to order your favourite dish every time, or to try something new? If Ingrid Bergman hadn't gotten on the plane at the end of Casablanca, would she and Bogey have been better off? Smart, witty, accessible and laugh-out-loud funny, Stumbling on Happiness brilliantly describes all that science has to tell us about the uniquely human ability to envision the future, and how likely we are to enjoy it when we get there.
