The Eye of the I

From Which Nothing Is Hidden *Hay House,*

Inc

This is the second volume of a trilogy that began with *Power vs. Force* and will be completed in the year 2002 by the publication of the third volume entitled *I: Reality and Subjectivity*. The Eye of the I (which calibrates at 950) is more advanced than *Power vs. Force* (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations.

Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.

In the Eye of the Wild *New York Review of Books*

After enduring a vicious bear attack in the Russian Far East's Kamchatka Peninsula, a French anthropologist undergoes a physical and spiritual transformation that

forces her to confront the tenuous distinction between animal and human. In the *Eye of the Wild* begins with an account of the French anthropologist Nastassja Martin's near fatal run-in with a Kamchatka bear in the mountains of Siberia. Martin's professional interest is animism; she addresses philosophical questions about the relation of humankind to nature, and in her work she seeks to partake as fully as she can in the lives of the indigenous peoples she studies. Her violent encounter with the bear, however, brings her face-to-face with something entirely beyond her ken—the untamed, the nonhuman, the animal, the wild. In the course of that encounter

something in the balance of her world shifts. A change takes place that she must somehow reckon with. Left severely mutilated, dazed with pain, Martin undergoes multiple operations in a provincial Russian hospital, while also being grilled by the secret police. Back in France, she finds herself back on the operating table, a source of new trauma. She realizes that the only thing for her to do is to return to Kamchatka. She must discover what it means to have become, as the Even people call it, *medka*, a person who is half human, half bear. In the *Eye of the Wild* is a fascinating, mind-altering book about terror, pain, endurance, and self-transformation,

comparable in its intensity of perception and originality of style to J. A. Baker's classic *The Peregrine*. Here Nastassja Martin takes us to the farthest limits of human being.

The Eye

Basic Sciences in Practice *Elsevier Health Sciences*

Preceded by *The eye* / John V. Forrester ... [et al.]. 3rd ed. 2008.

Eye Of The Day *Harper Collins*

From a writer The Globe and Mail described as "Leonard Cohen's spiritual daughter." When a brutal explosion in a cottage town in Vermont brings together Amos, a disfigured handyman, and Aubrey, the cosseted son of a wealthy New England

family, neither has any idea that this event will shape them forever. As their lives touch again over the years, these unlikely friends forge a bond that survives war and peace, love and loss. Dennison Smith seamlessly weaves together the lives of the silent Amos and the motherless Aubrey--from '30s Vermont, where Aubrey photographs a naked Greta Garbo as she swims in an icy lake; to Princeton, where Albert Einstein is a friend and neighbour; to pre-revolutionary Havana and the remote oil fields of Alberta--before they meet again in the Italian Alps in the last days of the Second World War. There, one man will save the life of the other and transform his own; and with the young Inuit

woman, Kona, he will start a new life. Blending the personal with the historical, this is a remarkable coming-of-age story in which “life in all its passions, prejudices and precariousness overflows from every page” (Henry Sutton).

Look Me in the Eye

My Life with Asperger's *Crown*
 NEW YORK TIMES
 BESTSELLER • “As sweet and funny and sad and true and heartfelt a memoir as one could find.” —from the foreword by Augusten Burroughs
 Ever since he was young, John Robison longed to connect with other people, but by the time he was a teenager, his odd habits—an inclination to blurt out non

sequiturs, avoid eye contact, dismantle radios, and dig five-foot holes (and stick his younger brother, Augusten Burroughs, in them)—had earned him the label “social deviant.” It was not until he was forty that he was diagnosed with a form of autism called Asperger’s syndrome. That understanding transformed the way he saw himself—and the world. A born storyteller, Robison has written a moving, darkly funny memoir about a life that has taken him from developing exploding guitars for KISS to building a family of his own. It’s a strange, sly, indelible account—sometimes alien yet always deeply human.

The Eye of the Elephant

An Epic Adventure in the African

Wilderness *HMH*

An “exciting” true account of battling the elephant poachers of Zambia by the author of *Where the Crawdads Sing* and her fellow biologist (The Boston Globe). Intelligent, majestic, and loyal, with lifespans matching our own, elephants are among the greatest of the wonders gracing the African wilds. Yet, in the 1970s and 1980s, about a thousand of these captivating creatures were slaughtered in Zambia each year, killed for their valuable ivory tusks. When biologists Mark and Delia Owens, residing in Africa to study lions, found themselves in the middle of a poaching fray, they took the only side they morally could: that of the

elephants. From the authors of *Secrets of the Savanna*, *The Eye of the Elephant* is “part adventure story, part wildlife tale,” recounting the Owens’s struggle to save these innocent animals from decimation, a journey not only to supply the natives with ways of supporting their villages, but also to cultivate support around the globe for the protection of elephants (The Boston Globe). Filled with daring exploits among disgruntled hunters, arduous labor on the African plains, and vivid depictions of various wildlife, this remarkable tale is at once an adventure story, a travelogue, a preservationist call to action, and a fascinating examination of both

human and animal nature.

The Map of Consciousness Explained

A Proven Energy Scale to Actualize Your Ultimate Potential *Hay House, Inc*

An accessible exploration of best-selling author's most famous work, *The Map of Consciousness*, that helps readers experience healing and transcendence. We are all born with a level of consciousness, an energetic frequency within the vast field of consciousness. And with *The Map of Consciousness*, we can truly understand the total spectrum of human consciousness. Using a unique muscle-testing method, Dr. David R. Hawkins conducted more than 250,000 calibrations

during 20 years of research to define a range of values, attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the *Map of Consciousness*, which Dr. Hawkins first wrote about in his best-selling book, *Power vs. Force*. With the *Map*, Dr. David R. Hawkins laid out the entire spectrum of consciousness, from the lower levels of Shame, Guilt, Apathy, Fear, Anger, and Pride; to Courage, Acceptance, and Reason; all the way up to the more expanded levels of Love, Ecstasy, Peace, and Enlightenment. These "higher" energy fields are a carrier wave of

immense life energy. An essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields, *The Map of Consciousness Explained* offers readers an introduction and deeper understanding of the Map, with visual charts and practical applications to help them heal, recover, and evolve to higher levels of consciousness and energy. This book is a light unto the path of any individual who wants to become more effective in any area of life.
