Final Secret of the Illuminati

The great modern classic of a brilliant rebel's personal exploration into the nature of consciousness Featuring a New

Introduction by John Higgs "Cosmic Trigger deals with a process of deliberately induced brain change. This process is called "initiation" or "vision quest" in many traditional societies and can loosely be considered some dangerous variety of self-psychotherapy in modern terminology. I do not recommend it for everybody . . . briefly, the main thing I learned in my experiments is that "reality" is always plural and mutable." - Robert Anton Wilson from the Preface The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

A Novel Dell

This American underground classic is a rollicking cosmic mystery featuring Albert Einstein and James Joyce as the ultimate space/time detectives. And on that same momentous night, Sir John Babcock, a terror-stricken young Englishman, would rush through the tavern door bringing a mystery that only the

two most brilliant minds of the century could solve . . . or perhaps bringing only a figment of his imagination born of the paranoia of our times. An outrageous, raunchy ride through the twists and turns of mind and space, *Masks of the Illuminati* runs amok with all our fondest conspiracy theories to show us the truth behind the laughter . . . and the laughter in the truth. Quantum Psychology

How Brain Software Programs You and Your World *New Falcon Publications* Throughout human history, thoughts, values and behaviours have been coloured by language and the prevailing view of the universe. With the advent of Quantum Mechanics, relativity, non-Euclidean geometries, non-Aristotelian logic and General Semantics, the scientific view of the world has changed dramatically from just a few decades ago. Nonetheless, human thinking is still deeply

rooted in the cosmology of the middle ages. This is the book to change your way of perceiving yourself -- and the universe. Some say it's materialistic, others call it scientific and still others insist it's mystical. It is all of these -- and none. The book for the 21st Century, complete with exercises. High Weirdness

Drugs, Esoterica, and Visionary Experience in the Seventies *MIT Press*

An exploration of the emergence of a new psychedelic spirituality

in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson. A study of the spiritual provocations to be found in the work of Philip K. Dick, Terence McKenna, and Robert Anton Wilson, *High Weirdness* charts the emergence of a new psychedelic spirituality that arose from the American counterculture of the 1970s. These three authors changed the way millions of readers thought, dreamed, and experienced reality—but how did their writings reflect, as well as shape, the seismic cultural shifts taking place in America? In *High Weirdness*, Erik Davis—America's leading scholar of high strangeness—examines the published and

unpublished writings of these vital, iconoclastic thinkers, as well as their own life-changing mystical experiences. Davis explores the complex lattice of the strange that flowed through America's West Coast at a time of radical technological, political, and social upheaval to present a new theory of the weird as a viable mode for a renewed engagement with reality.

Coincidence

A Head Test

This, for my money, is the most spectacular non-fiction work that Wilson ever penned, breathtakingly adventurous in both its content and its strikingly experimental form. Uncertain and demonstrably uncaring

whether it's a piece of literary criticism, metaphysical discussion or anthology of diverse esoteric writings, this remarkable compendium is best seen, in the spirit of its title, as a glorious accidental dance of meaning, modernism and mythology. - Alan Moore, from his introduction to *Coincidence* - The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

Philosophy for Life and Other Dangerous Situations

Ancient Philosophy for Modern Problems

New World Library

When philosophy rescued him from an emotional crisis, Jules Evans became fascinated by how

ideas invented over two thousand years ago can help us today. He interviewed soldiers, psychologists, gangsters, astronauts, and anarchists and discovered the ways that people are using philosophy now to build better lives. Ancient philosophy has inspired modern communities — Socratic cafés, Stoic armies, Epicurean communes — and even whole nations in the quest for the good life. This book is an invitation to a dream school with a rowdy faculty that includes twelve of the greatest philosophers from the ancient world, sharing their lessons on happiness, resilience, and much more. Lively and inspiring, this is philosophy for the street, for the

workplace, for the battlefield, for love, for life.

Pigspurt's Daughter

A Mythic Dad / A Legacy of Lunacy

Director, actor, writer, Daisy Eris Campbell grew up in the lunatic world of her father, master storyteller Ken Campbell, described by The Guardian obituary as the most original and unclassifiable talent in British theatre of the past half-century. Daisy was literally conceived on

the set of her father's 12-hour staging of Robert Shea and Robert Anton Wilson's epic production of *Illuminatus!*, in which her mother Prunella Gee played Eris, the 50-foot goddess of discord. In *Pigspurt's Daughter*, Daisy presents a surreal and comedic monologue that magnificently builds on the family tradition, and includes the enlightening obscure art of gastromancy leading to the absurdly entertaining necessity of Daisy coming to terms with the larger-than-life influence of her father on her life, what Daisy calls "pulling herself out from her dad's arsehole."

American Cosmic

UFOs, Religion, Technology *Oxford University Press*

More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. American Cosmic examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful

and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like The X-Files, which can influence memory, and the believability lent to that media by the search for planets that might support life. American Cosmic explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority

that offers believers human intelligent life.
