Static Electricity Charge Answer Sheet - test.enableps.com

The static electric charges that cause lightning are generated by the action of wind and rain transporting electrons between clouds and earth, or between clouds. Particles of dust may also transport electrons in the same manner, which accounts for the spectacular discharges of lightning often seen during massive uprisings of dust, such as during volcanic eruptions.

Static Electricity - Super Teacher Worksheets

This is addressed by using a static charge eliminator: a comb with very fine conducting threads or brushes that touch the paper sheet at many points on a single line perpendicular to the direction of paper motion. The threads rub the paper as it gets out of the printer; due to close proximity of the conducting threads and the paper, the threads and then the comb is able to collect and leak out excessive charge from the paper.
