How to light your gas grill manually - Weber

To light a Weber® gas grill, first open the lid so unlit gas fumes don't collect in the cooking box. Next, slowly open the valve on your propane tank (or natural gas line) all the way and wait a minute for the gas to travel through the gas line. Depending on the model you own, you may need to turn the knob to High/Start and then click the ignition button to light each burner individually.

Lighting a Gas Grill - Weber Charcoal & Gas Grills

Lighting a charcoal barbecue is a more manual process than lighting other types, but doesn't have to be difficult. You can attempt to light it with no assistance, but we recommend using specialist lighting aids for the best

results. The rule of thumb is that charcoal heats up faster but briquettes stay hot for longer.
