Capture the world in sharp focus with NIKKOR For more than 80 years, elite craftsmen have pursued optical perfection in the creation of NIKKOR lenses. A lens bearing the NIKKOR name is a sign of the greatest

attention to detail in every aspect.

overview - Nikon

The 70-300mm focal length range (105-450mm when used with a Nikon DX-format SLR) easily puts you in the centre of the action. A minimum focus distance of 1.2 m throughout the zoom range and a 0.25x maximum reproduction ratio lets you get in close and fill the frame. And the Internal Focusing (IF) system means the front lens does not rotate while focusing, which is convenient if you're

using a filter.
