The Two Cultures And The

"The Two Cultures" is the first part of an influential 1959 Rede Lecture by British scientist and novelist C. P. Snow which were published in book form as *The Two Cultures and the Scientific Revolution* the same year. Its thesis was that science and the humanities which represented "the intellectual life of the whole of western society" had become split into "two cultures" and that this

division was a major handicap to both in solving the world's problems.

The Two Cultures - Wikipedia

This is the publication of the influential 1959 Rede Lecture by British scientist and novelist C. P. Snow. Its thesis was that "the intellectual life of the whole of western society" was split into the titular two cultures - namely the sciences and the humanities - and that this was a major hindrance to solving the world's problems.

The Two Cultures and the Scientific Revolution: Amazon.co ...

His idea of two cultures would have been anathema to most thinkers prior to the 1800s and stems partly from an event referenced in his title. 'The Scientific Revolution' was a period in the 1600s when natural philosophers (as scientists were then termed) developed an experimental method for their work, which continues to be the fundamental basis of much scientific activity today.

The end of the 'two cultures' | Financial Times

The "two cultures" is not so much humanities vs. science but the academic literary intellectuals vs. a techno-industrial-science research elite. While I can accept that this might have been a tension in post-war Britain the great question C.P. Snow's famous lecture makes more sense when paired with his later writing "A Second Look" from 1963.

The Two Cultures by C.P. Snow - Goodreads

The idea of the 'two cultures' was launched by C. P. Snow in the Rede lecture, delivered in Cambridge on 9 March 1959, and entitled, 'The two cultures and the scientific revolution'.

Snow claimed that the 'intellectual life of the whole of western society is increasingly split into two polar groups' (1), scientists and literary intellectuals, and that a 'gulf of mutual incomprehension' had grown up between them.
